 - ▶ June runs
 - ▶ Shifts & Training

Since CM41

March-April : Weekend running

- Goals of these weekend runs was to test the DAQ, Run Control and readout PID detectors; start beamline pre-commissioning
- Very unstable (both us and ISIS) for much of the time
- Introduction of new trigger board by Yordan was an enormous step – last weekend run was almost 16 hours of uninterrupted data taking

Thanks to the shifters, experts (esp Yordan & Francois) and the MOM (Pierrick, Yordan, Milorad and Paul H)

Since CM41

June 2015 : Nightly running

Goals : Get tracker working and reading out with beam
Tracker commissioning
Readout and reconstruct online full Step IV setup
Beamline pre-commissioning

Most goals achieved – see the individual talks in the plenary (still running to do). Our main problems have been ISIS shutdowns, issues with the decay solenoid, and online software instability

Daily run meetings have been very useful, allowing us to plan the next night with reference to the issues found in the previous run

Since CM41

June 2015 : Nightly running

Goals : Get tracker working and reading out with beam
Tracker commissioning
Readout and reconstruct full Step IV setup
Beamline pre-commissioning

Most goals achieved – see the individual talks in the plenary (still running to do). Our main problems have been ISIS shutdowns and issues with the decay solenoid, and online software instability

Thanks to : the shifters, the MOM (Victoria), Yordan, lots of work by Ed, Melissa and the tracker group, plus all those I have failed to name. Mea Culpa entirely.

Shifts

June 2015 today < >

Mon	Tue	Wed	Thu	Fri	Sat	Sun
1	2	3	4	5	6	7
MOM [victoria.blackmore/Imperial]						
	BLOC [chris.heidt/UCR]					BLOC [adam.dobbs/Impi]
	Reserve Shifter [paolo.franchini/Warwick]					Deputy MOM [adam.dobbs/Impi]
	Deputy MOM [ken.long/Imperial]					Reserve Shifter [john.nugent/Glas]
	22:00 - 06:00* [chris.heidt/UCR]					22:00 - 06:00* [adam.dobbs/Impi]
	22:00 - 06:00 [celeste.pidcott/Warwick]					22:00 - 06:00 [sophie.middleton]

- ▶ CHEESE given a thorough workout and I think has passed with flying colours **(Thanks Jan!)**
- ▶ All shifts full to the end of Cycle 2015/01b
- ▶ Will open shift system for Cycle 2015/02 next month.

Training

Dr Steven Boyd

Your shifter training is incomplete. See below for details.

THE UNIVERSITY OF
WARWICK

Update Profile

Upcoming Shifts:

None

Institution:	University of Warwick
Email:	s.b.boyd@warwick.ac.uk
Office Phone:	442476573876
Home/Cell Phone:	
Position:	Associate Professor
Authorship Status:	Full
Active Shifter:	Yes
On MICE Since:	2011-04-01
Current Activities:	Panicking
Past Activities:	Panicked
CHEESE Security Clearance:	Superuser
Profile Last Updated:	2015-06-12
Control Room Training:	Not completed!
Target Training:	Not completed!
Beamline Training:	Not completed!
PPS Training:	Not completed!
CDM Induction:	Completed on 2015-06-12 (exp. in 724 days)

- ▶ We are also putting in place regular training for new (& rusty) shifters (more in plenary)
- ▶ I will oversee training and make certain we train collaborators as they come to RAL for shifts
- ▶ We are now using the CHEESE database to record training status.

Over to Victoria.....
