

String-Math 2016, Collège de France, Paris

Monday, June 27, 2016 - Saturday, July 2, 2016

Collège de France

Scientific Program

The programme will feature a combination of long talks (50 min) and short talks (25 min) by leading physicists and mathematicians. Wednesday afternoon will be free. The last day (Saturday July 2nd) will be dedicated to a general public session.

Long talks

Mina Aganagic (UC Berkeley)
Thibault Damour (IHES)
Davide Gaiotto (Perimeter Institute, Waterloo)
Jaume Gomis (Perimeter Institute, Waterloo)
Sheldon Katz (Urbana Champaign)
Maxim Kontsevich (IHES)
Marcos Marino (Université de Genève)
Gregory Moore (Rutgers University)
Hiraku Nakajima (RIMS Kyoto)
Rahul Pandharipande (ETH Zürich)
Alexander Polishchuk (University of Oregon)
Leonardo Rastelli (Stony Brook University)
Olivier Schiffmann (Université Paris-Sud Orsay)
Carlos Simpson (Université de Nice - Sophia Antipolis)
Jorg Teschner (DESY, Hamburg)
Richard Thomas (Imperial College, London)
S.T. Yau (Harvard University)

Short talks

Benjamin Basso (Ecole Normale Supérieure, Paris)
Mikhail Bershtein (Landau Institute, Moscow)
Gaetan Borot (MPIM, Bonn)
Mathew Bullimore (Oxford)
Stefano Cremonesi (Kings' College, London)
Olivia Dumitrescu (MPIM, Bonn)
Abhijit Gadde (IAS Princeton)
Nikolay Gromov (Kings' College, London)
Sarah Harrison (Harvard University)
Andre Henriques (Oxford and Utrecht)
Min-xin Huang (University of Science and Technology of China)
Oleg Lisovyy (Université de Tours)
Kohei Iwaki (University of Nagoya)
Jorgen Rennemo (Oxford)
Laura Schaposnik (University of Illinois at Chicago)
Pavol Severa (Université de Genève)
Daisuke Yamakawa (Tokyo Institute of Technology)
Dimitri Zvonkine (Université Pierre et Marie Curie - Paris 6)

General public session, Saturday July 2nd:

Hiroshi Ooguri (Caltech and IPMU)
Andrei Okounkov (Columbia University)
Robbert Dijkgraaf (IAS Princeton)
Nigel Hitchin (Oxford)
Nima Arkani-Hamed (IAS Princeton)
