

Session Program

17-26 Jul 2006

MC4LHC - 2006

Underlying event and minimum bias events

CERN

Friday 21 July

09:25

Underlying event and minimum bias events

Session | Location: CERN, 40-SS-C01

09:30-09:50 UE/MB subtraction in kT clustering

Speaker
Matteo Cacciari

09:50-10:10 Tuning of proton momentum spectrum in diffractive events

Speaker
Monika Grothe

10:10-10:50 Tuning the Monte-Carlo Models and Extrapolations to the LHC

Speaker
Prof. Rick Field

10:50-11:05 coffee break

11:05-11:25 UE in CMS

Speaker
Filippo Ambroglini

11:25-11:45 MB in ATLAS (at start-up)

Speaker
Craig Buttar

11:45-12:05 Stringy Uncertainties in Hadron Collisions

Speaker
Dr Peter Skands

12:05-12:35 Discussion

12:55
