

APS Update

Mark Doyle

AAHEP8 – September 2, 2015

Developments

- Revamping Supplemental Material and Data underway
 - New editorial guidelines essentially complete for supplemental material
 - Implementation underway
- CHORUS
 - CrossRef's FundRef, licensing, public access
 - Agency harvesting, TDM
- Taxonomy – by end of year
- Altmetric implemented
- REVTeX 4.2 – completed, coming to CTAN soon; titles in references

Harvest API – v2

- Visit harvest.aps.org
 - <http://harvest.aps.org/docs/harvest-api> - documentation
 - <http://harvest.aps.org/docs/schemas/article> - JSON schema for basic article metadata
- Features
 - Article metadata open to all
 - Content negotiation
 - Token-based and IP-based authentication
 - All CC-BY OA content available as a set
- Would like to move all harvest clients to v2

Taxonomy
