

Actilab au GANIL

Pierre Delahaye

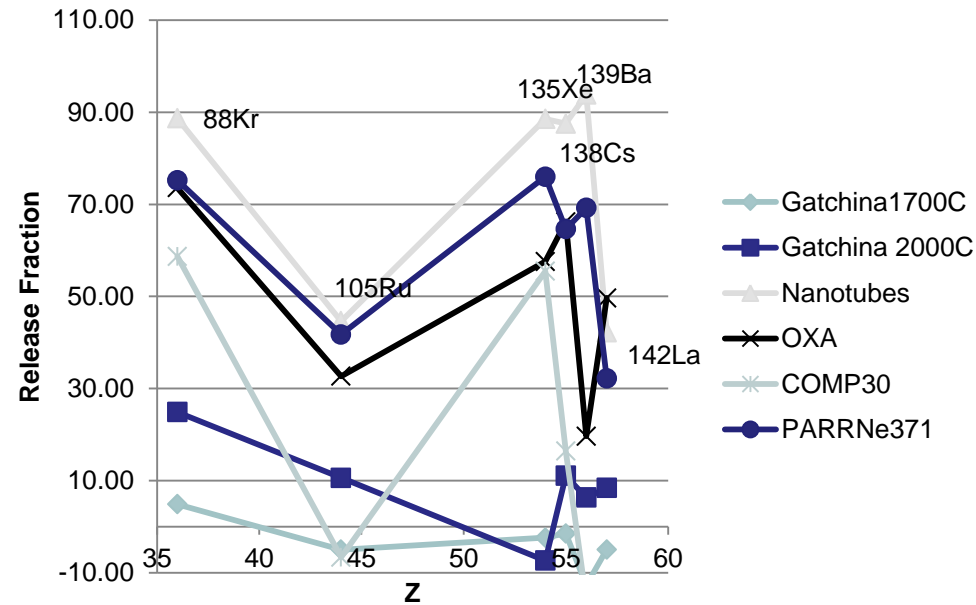

Hanna Franberg Delahaye

Joanna Grynier

Marie Genevieve Saint Laurent

Activities and participations

- Simulations of UCx targets
- Participation in experiments at ISOLDE and IPNO
- Participation in planning of the experiments at ISOLDE and IPNO
- Participation in analysis of the experiments where we participated.
- Joanna Grinyer has been financed by ActiLab for 8 months and by GANIL for 22 months 09/2012-02/2015 (prolongation to work on NFS SPIRAL 2)
- Purchase of portable GENIE 2000 → Finally not used during Actilab due to delay in delivery and beam time scheduling.

	Budget used
Contrat Post Doc 8 months	31 000
Travel	4 100
Genie	17 000
Budget EU	38 000

SPIRAL 2 phase 2

(ISOL target production part)

- The studies was formally postponed (not cancelled) as from end of 2013.
- Reason was manpower and cost estimations.
- The financing parties (CEA and CNRS) have requested that the start-up of the accelerator, neutrons for science and S3 are performed with success before the implementation of the phase 2 are continued continued.
