

Session Program

7-11 Sept 2015

POETIC VI

September 7th-11th 2015
Palaiseau, France

6th International Conference on Physics Opportunities at an Electron-Ion Collider

POETIC6

Future facilities Parallel

Ecole Polytechnique, Amphi Gay-Lussac
Palaiseau, FRANCE

Friday 11 September

11:00

Future facilities Parallel

Session | **Location:** Ecole Polytechnique, Amphi Becquerel | **Convener:** Charles Hyde

11:00–11:20

A dedicated eRHIC Detector design

Speaker

Dr Alexander Kiselev

11:20–11:40

The low Q2 chicane and Compton polarimeter at the JLab mEIC

Speaker

Alexandre Camsonne

11:40–12:00

Interaction region design and auxillary detector systems for an EIC

Speaker

Dr Richard Petti

12:00–12:20

A study of neutron structure with (un)polarized deuterons and forward spectator tagging at EIC

Speaker

Dr Kijun Park

12:20
