

Session Program

7-11 Sept 2015

POETIC VI

September 7th-11th 2015
Palaiseau, France

6th International Conference on Physics Opportunities at an Electron-Ion Collider

POETIC6

pp-pA-AA

Ecole Polytechnique, Amphi Gay-Lussac
Palaiseau, FRANCE

Tuesday 8 September

09:00

pp-pA-AA

Session | Location: Ecole Polytechnique, Amphi Gay-Lussac, Palaiseau, FRANCE | Convener: Raphael Dupre

09:00-09:25 The initial stages of heavy ion collisions

Speaker
Francois Gelis

09:25-09:50 Forward di-jet production in dilute-dense collisions

Speaker
Elena Petreska

09:50-10:15
Forward dijet production and improved TMD factorization in dilute-dense hadronic collisions

Speaker
Sebastian Piotr Sapeta

10:15-10:40 Nuclear suppression in p-A collisions from induced gluon radiation

Speaker
Stephane Peigne

10:40

Friday 11 September

13:45

pp-pA-AA

Session | **Location:** Ecole Polytechnique, Amphi Gay-Lussac, Palaiseau, FRANCE | **Convener:** Francois Arleo

13:45-14:10

What do we need an eA collider for: questions from pp, pA and AA

Speaker

Guilherme Teixeira De Almeida Milhano

14:10-14:35

Quark-Hadron Transition and Hadronization Studies at an EIC

Speaker

Kawtar Hafidi

14:35-15:00

Multiparton interactions in pp collisions: between bug and feature

Speaker

Markus Diehl

15:00-15:25

Color fluctuation phenomena in photon(proton) - nucleus collisions

Speaker

Mark Strikman

15:25-15:50

Electro- and hadro-production of charmonia off nuclei

Speaker

Boris Kopeliovich

15:50
