

Session Program

22-24 Jun 2015

26th RD50 Workshop (Santander)

3D detectors

Santander

Monday 22 June

15:30

3D detectors

Session | **Location:** Santander | **Convener:** Giulio Pellegrini

15:30–15:50 **Recent progress on 3D pixel detectors**

Speaker

Joern Lange

15:50–16:10 **Status of 3D detector activities at CNM**

Speaker

Giulio Pellegrini

16:10–16:30

Recent testbeam results of 50 μm pitch 3D sensors at high incidence angle for HL-LHC

Speaker

Ivan Lopez Paz

16:30–16:50

Proposal for a new RD50 project "Strip sensors made of N-rich FZ silicon"

Speaker

Alexander Dierlamm

16:50–17:10 **Discussion on 3D detectors and RD50 proposal**

17:30–18:00 **Coffee break**

18:00
