

# AIDA

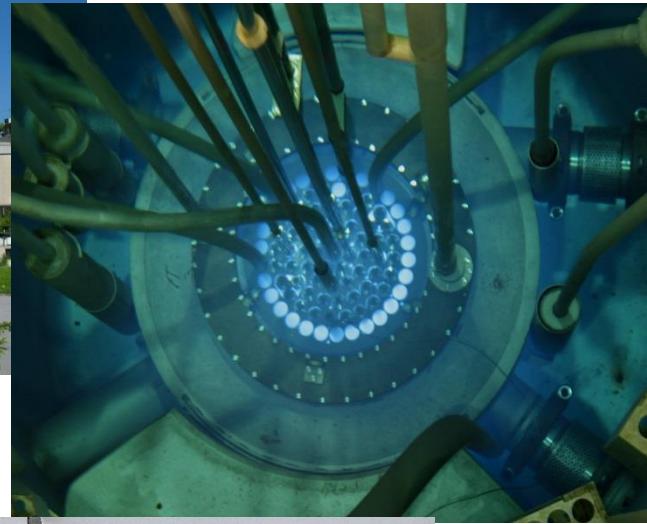

## Transport System for Large objects at **Ljubljana JSI TRIGA Reactor** **(part of WP15.5)**

Marko Mikuž, Luka Snoj

J.Stefan Inst. & Univ. Ljubljana, Slovenia

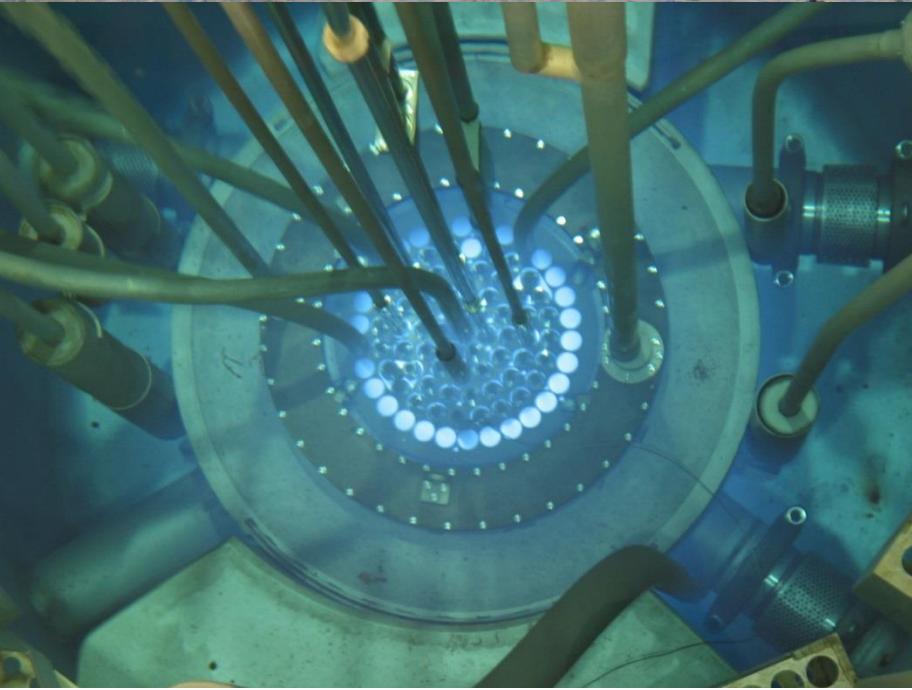

AIDA2 Kick-Off Meeting, CERN, June 4, 2015

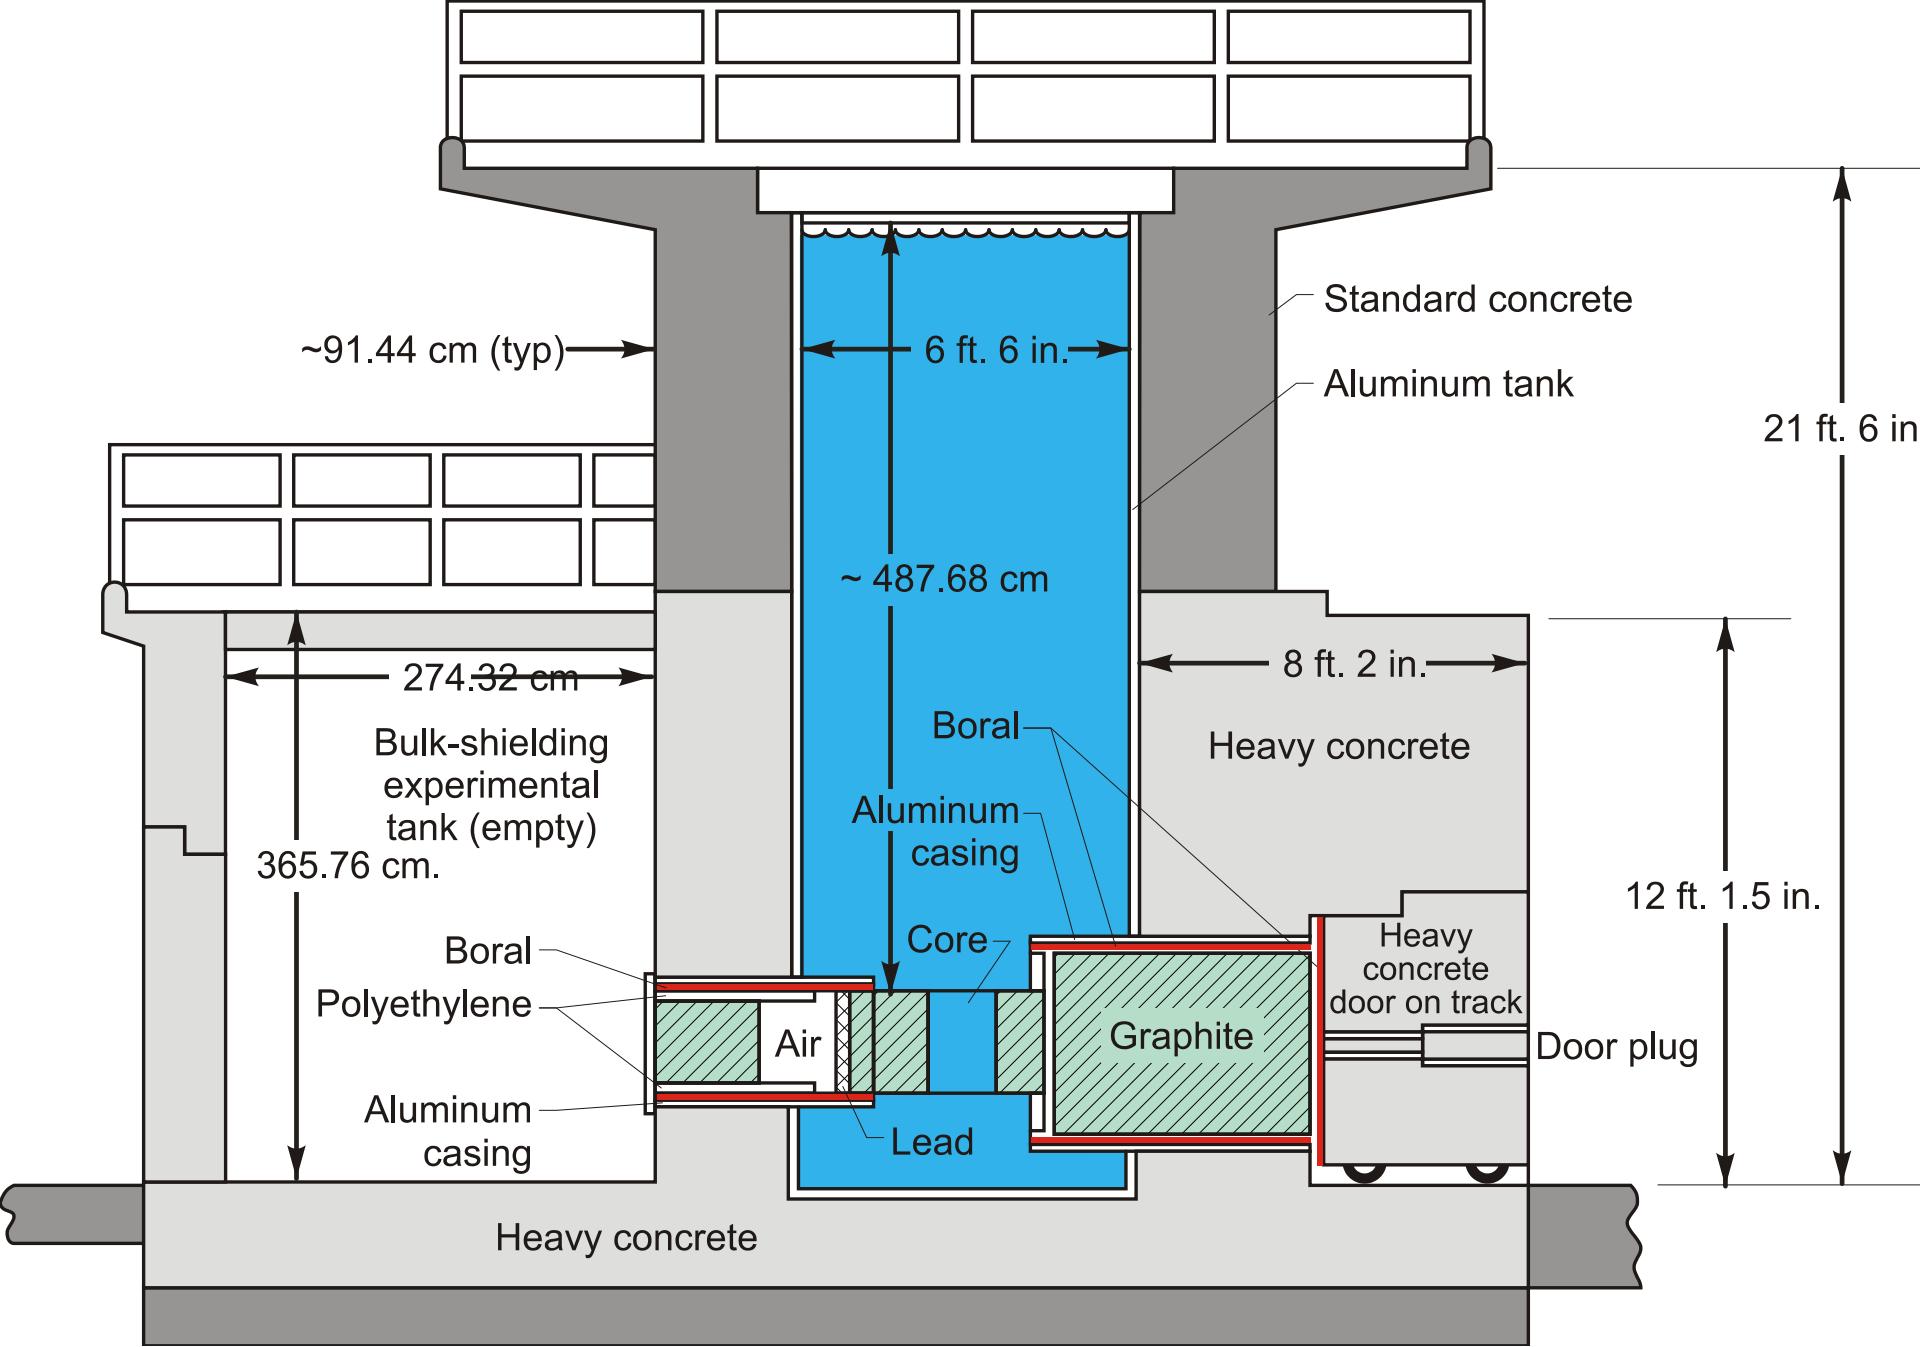

# TRIGA Mark II Reactor Ljubljana

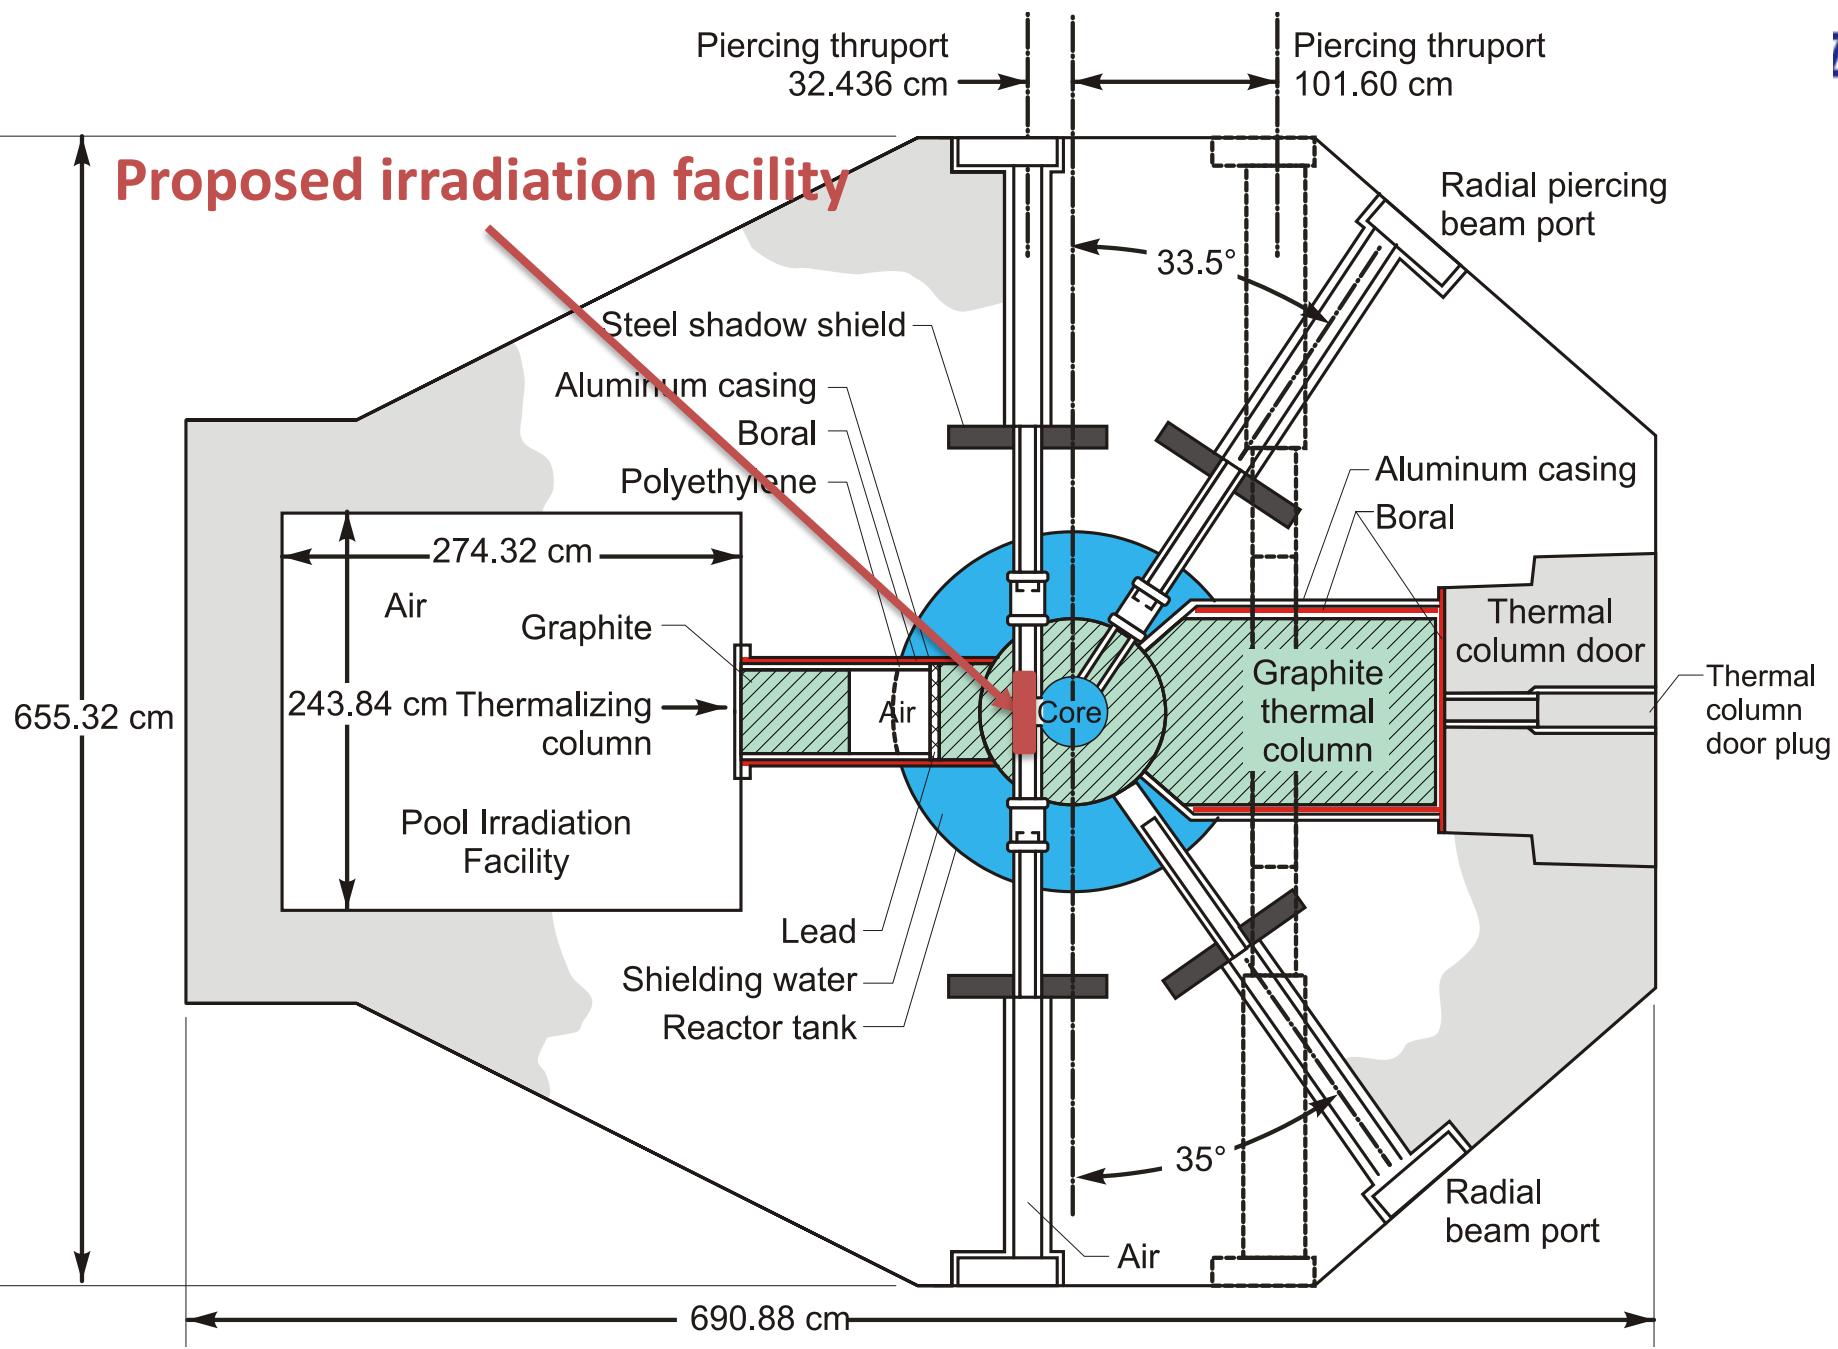

- 1<sup>st</sup> criticality:
  - 31<sup>st</sup> May, 1966
- $P_{\max}$ 
  - 250 kW (steady state)
  - 1 GW (pulse)
- Fuel
  - UZrH (12 wt. % U)
  - E= 20 %

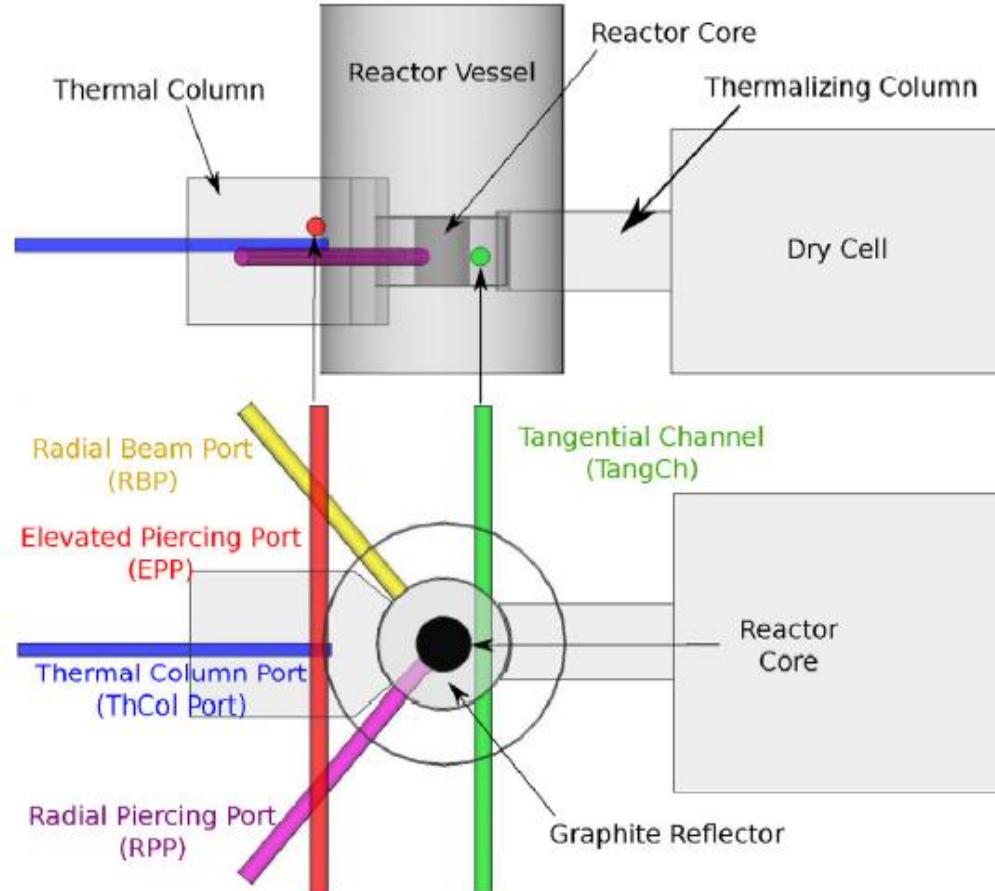

# TRIGA Irradiation Channels

# Goal

---

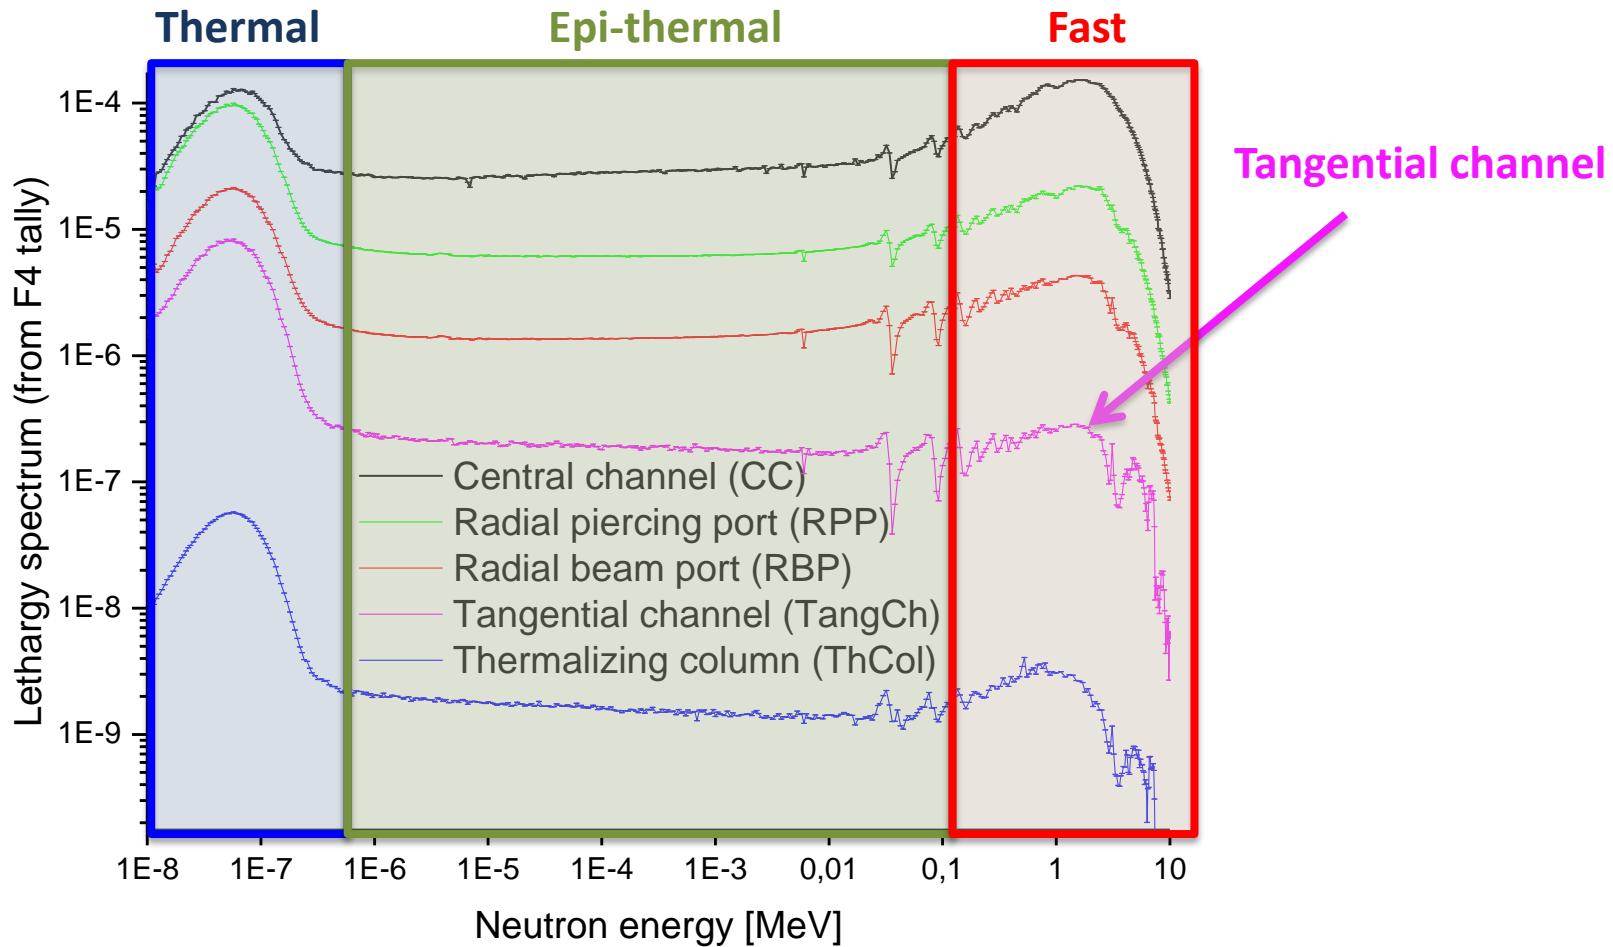

- Develop and install a large sample irradiation ( $2R < 15$  cm) facility in the tangential channel of the JSI TRIGA reactor

# Tangential Channel Characteristics

---

- Inner diameter: 15 cm
- Neutron flux characterisation:
  - L. Snoj et al., Appl. Rad. Isot. 70 (2012) 483–488
- Neutron flux:  $1.3 \text{e}12 \text{ n/cm}^2\text{s}$ 
  - Thermal ( $E < 0.625 \text{ eV}$ ): 58 %
  - Epithermal ( $0.625 \text{ eV} < E < 100 \text{ keV}$ ): 25 %
  - Fast (  $E > 100 \text{ keV}$ ): 17 % ->  $2.2 \text{ E}11 \text{ n/cm}^2\text{s}$ 
    - $1\text{e}15 \text{ n}_{\text{eq}}/\text{cm}^2$  in 1 ½ hours

# Neutron Spectra

# Activities

---

- Calculations to support development of the irradiation facility
- Experimental and computational characterisation of the facility
- Design and installation of the facility
  - need for strong neutron + gamma shields

# Milestone, Deliverable, Budget

---

- MS15.9: Design of a transport system for neutron irradiations of large samples:
  - *The design of a transport system for large objects of a diameter of up to 12cm into the Ljubljana reactor irradiation position including the possibility for electrical and cooling connections to the samples has been documented.*
  - Milestone for M12 (Report to StCom)
- D15.9: JSI TRIGA Reactor Transport system:
  - *The transport system for large objects of a diameter of up to 12cm into the reactor irradiation position including the possibility for electrical and cooling connections to the samples has been installed and commissioned. (Task 15.5)*
  - Deliverable for M18
- Budgeted with 25 k€ EC contribution, additional cost covered by internal funds
