

**“conCERNed for Humanity” invites you to a discussion about**

**Thursday 26th March  
12:30 - 14:00  
CERN Room C- (61-1-009)**

**TTIP – Why don't the politicians and big business on both sides of the Atlantic want you to know about this trade agreement ?**

**with**

**Mr Richard Elsner**

**(Pivotal Moment -[www.pivotal-moment.eu](http://www.pivotal-moment.eu))**

Only a small % of European citizens know that, in their name, the European Commission has been negotiating with the US Government for almost two years a revolutionary trade agreement which could radically alter the way in we are governed, and who governs us. **Interesting**, no?

It is **interesting** that such a change should be entertained, and be in negotiation, because any change of such consequence will affect each and every citizen, whether he/she knows about it or not. It is also **Interesting** that most of us are in the dark about this, and that none of us ever voted for it.

In his short presentation, Richard Elsner will give you the ABC's about this trade agreement, called the Transatlantic Trade and Investment Partnership (or TTIP), and will draw out its main dangers for our democracy and way of life. **Interesting** to you?
