

**BOOST2015: 7th International Workshop on Boosted Object
Phenomenology, Reconstruction and Searches in HEP**

Contribution ID: 38

Type: **not specified**

**Lessons Learned from Sensitivity Studies to
High-Mass Resonances Decaying to $t\bar{t}$ at a 100 TeV
Collider**

Thursday 13 August 2015 16:15 (25 minutes)

Presenter: LOVE, Jeremy Robert (Argonne National Laboratory (US))

Session Classification: Future Colliders Session
