

PHOTON2007

Monday, 9 July 2007 - Friday, 13 July 2007
Amphithéâtre Richelieu, La Sorbonne, Paris

Book of Abstracts

Contents

Welcome	1
The Photon : A general Introduction	1
Inclusive Diffraction and diffractive jets and D^* at HERA	1
COMPASS spin dependent longitudinal asymmetries on deuteron target	1
Measurement of the gluon polarization of the nucleon at COMPASS	1
Transversity measurements at COMPASS	1
Deeply Virtual Compton Scattering on a Photon and Generalized Parton Distributions in the Photon	1
Low-x gluon density and rescattering effects	1
The alternative approach to QCD analysis of the structure function F_2_γ	2
Sense and nonsense on parton distribution functions of the photon	2
The Virtual Photon Structure to the Next-to-next-to-leading Order in QCD	2
Measurement of Leptonic Structure Functions with the L3 detector at LEP	2
High-ET Jets in Photoproduction with implications regarding photon structure	2
Measurement of the Inclusive ep Scattering Cross Section at HERA	2
Resolved Photons and NLO QCD at HERA	2
Proton parton-density-function constraints from Tevatron data on photon and jet production	2
Minijets, soft gluon resummation and photon cross-sections	3
Review of inclusive diffraction at HERA and Tevatron	3
Study of $\pi\pi$ production in two-photon collisions at Belle	3
Introduction : Exclusive reactions with photons	3
Measurements of η_c and η_c' mesons in two-photon process at Belle	3
QCD factorizations in $\gamma^* \gamma^* \rightarrow \rho_0^+ \rho_0^+$	3

HERMES Measurements of Hard-Exclusive Processes	3
Jlab Measurements of Hard-Exclusive Processes	3
Hard-exclusive processes and Transition Distribution Amplitudes	4
Vector mesons and DVCS	4
Probing transversity GPD's in photo and electroproduction of two vector mesons	4
Resonance Search and Production at HERA	4
Prompt photons in DIS and photoproduction	4
Jets and α_s Measurements in DIS	4
Multijets in Photoproduction and Multi-Parton Interactions	4
Latest Results from HERMES on the Nuclear Dependence of Pion, Kaon, and Proton Formation	4
Inclusive jet and inclusive charged hadron production	5
D0 Measurement of Triple Differential Photon Plus Jet Cross Section in pp Collisions at 1.96 TeV	5
Theory	5
Semi-inclusive electron scattering at CLAS	5
Ultrapерipheral heavy ion interactions at ATLAS	5
Introductory remarks on Ultrapерipheral Heavy Ion Collisions(UPC)	5
Photoproduction in ultra-peripheral heavy ion collisions	5
Recent results of photoproduction in ultraperipheral relativistic heavy ion collisions at STAR	5
High energy quarkonia photoproduction at heavy ion colliders: from RHIC to LHC	6
High energy photoproduction at the LHC	6
High energy photon-photon interactions at the LHC	6
Photon-photon, photon-pomeron, and DPE production of exclusive final states at CDF	6
HERA electroweak measurements	6
Di-Boson production in ATLAS	6
Early Electroweak Measurements with CMS	6
Inclusive photon production and photon-jet correlations in hadronic collisions	7
The dipole form of the BFKL kernel at NLO	7
Heavy Flavour Production, QCD, and the Quark-Photon Coupling	7

Recent results from CDF on b-flavour production and spectroscopy	7
Measurement of the Cross Section for Open b Production in Two-photon Interactions at LEP	7
Heavy Flavours in photoproduction	7
Heavy Flavours in DIS	7
General Overview	7
Proton pdf QCD fits	8
Parton distributions at fixed k_T near $x=1$	8
Proton pdf constraints from W and Z at Tevatron	8
Physics with Photons at ATLAS	8
PLC Introduction	8
From a LEPC to a LHPC : the need for a dedicated photon-photon detector	8
High-Power Picosecond Pulse Recirculation for Inverse Compton Scattering	8
Towards a polarized positron source	8
Large contribution of the Delbrueck scattering into process of a photon emission in collisions of relativistic nuclei	9
Four fermion production from PLC to LHC	9
Signal of new physics	9
ILC/LHC	9
ILC/PLC and LHPC discussion	9
Higgs and SUSY	9
Experimental Summary	9
Theoretical Summary	9
Direct photon production at RHIC	9
Higgs- \rightarrow gamma gamma in ATLAS	10
Fermion Polarization at gamma-gamma Collider : A probe of CP properties of Higgs boson	10
Di-jet production in photon-photon collisions at DELPHI	10

Welcome / 0

Welcome

Introduction / 2

The Photon : A general Introduction

Total Cross section and diffraction / 3

Inclusive Diffraction and diffractive jets and D^* at HERA

Structure of the Photon and of the Proton / 4

COMPASS spin dependent longitudinal asymmetries on deuteron target

Structure of the Photon and of the Proton / 5

Measurement of the gluon polarization of the nucleon at COMPASS

Structure of the Photon and of the Proton / 6

Transversity measurements at COMPASS

Structure of the Photon and of the Proton / 7

Deeply Virtual Compton Scattering on a Photon and Generalized Parton Distributions in the Photon

Structure of the photon and of the proton / 8

Low-x gluon density and rescattering effects

Structure of the Photon and of the Proton / 9

The alternative approach to QCD analysis of the structure function F_2^γ

Structure of the Photon and of the Proton / 10

Sense and nonsense on parton distribution functions of the photon

Structure of the Photon and of the Proton / 12

The Virtual Photon Structure to the Next-to-next-to-leading Order in QCD

Structure of the Photon and of the Proton / 13

Measurement of Leptonic Structure Functions with the L3 detector at LEP

Jets and Inclusive reactions / 14

High-ET Jets in Photoproduction with implications regarding photon structure

Structure of the photon and of the proton / 15

Measurement of the Inclusive ep Scattering Cross Section at HERA

Structure of the Photon and of the Proton / 16

Resolved Photons and NLO QCD at HERA

Structure of the Photon and of the Proton / 17

Proton parton-density-function constraints from Tevatron data on photon and jet production

Total Cross section and diffraction / 18

Minijets, soft gluon resummation and photon cross-sections

Total Cross section and diffraction / 19

Review of inclusive diffraction at HERA and Tevatron

Resonances and Exclusive Processes / 20

Study of pi pi production in two-photon collisions at Belle

Resonances and Exclusive Processes / 21

Introduction : Exclusive reactions with photons

Resonances and Exclusive Processes / 22

Measurements of eta_c and eta_c' mesons in two-photon process at Belle

Resonances and Exclusive Processes / 23

QCD factorizations in $\gamma^* \gamma^* \rightarrow \rho^0_L \rho^0_L$

Resonances and Exclusive Processes / 24

HERMES Measurements of Hard-Exclusive Processes

Resonances and Exclusive Processes / 25

Jlab Measurements of Hard-Exclusive Processes

Resonances and Exclusive Processes / 26

Hard-exclusive processes and Transition Distribution Amplitudes

Resonances and Exclusive Processes / 27

Vector mesons and DVCS

Resonances and Exclusive Processes / 28

Probing transversity GPD's in photo and electroproduction of two vector mesons

Resonances and Exclusive Processes / 29

Resonance Search and Production at HERA

Jets and Inclusive reactions / 30

Prompt photons in DIS and photoproduction

Jets and Inclusive reactions / 31

Jets and α_s Measurements in DIS

Jets and Inclusive reactions / 32

Multijets in Photoproduction and Multi-Parton Interactions

Jets and inclusive reactions / 33

Latest Results from HERMES on the Nuclear Dependence of Pion, Kaon, and Proton Formation

Jets and Inclusive reactions / 34

Inclusive jet and inclusive charged hadron production

Jets and Inclusive reactions / 35

D0 Measurement of Triple Differential Photon Plus Jet Cross Section in pp Collisions at 1.96 TeV

Jets and Inclusive reactions / 36

Theory

37

Semi-inclusive electron scattering at CLAS

Photon and Electroweak boson physics from HERA , RHIC and TeVATRON to LHC / 38

Ultrapерipheral heavy ion interactions at ATLAS

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 39

Introductory remarks on Ultrapерipheral Heavy Ion Collisions(UPC)

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 40

Photoproduction in ultra-peripheral heavy ion collisions

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 41

Recent results of photoproduction in ultraperipheral relativistic heavy ion collisions at STAR

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 42

High energy quarkonia photoproduction at heavy ion colliders: from RHIC to LHC

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 43

High energy photoproduction at the LHC

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 44

High energy photon-photon interactions at the LHC

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 45

Photon-photon, photon-pomeron, and DPE production of exclusive final states at CDF

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 46

HERA electroweak measurements

Photon and Electroweak boson physics from HERA, RHIC and TeVATRON to LHC / 47

Di-Boson production in ATLAS

49

Early Electroweak Measurements with CMS

Jets and inclusive reactions / 50

Inclusive photon production and photon-jet correlations in hadronic collisions

51

The dipole form of the BFKL kernel at NLO

Charm and Beauty / 52

Heavy Flavour Production, QCD, and the Quark-Photon Coupling

Charm and Beauty / 53

Recent results from CDF on b-flavour production and spectroscopy

Charm and Beauty / 54

Measurement of the Cross Section for Open b Production in Two-photon Interactions at LEP

Charm and Beauty / 55

Heavy Flavours in photoproduction

Charm and Beauty / 56

Heavy Flavours in DIS

Structure of the Photon and of the Proton / 62

General Overview

Structure of the Photon and of the Proton / 63

Proton pdf QCD fits

Structure of the Photon and of the Proton / 64

Parton distributions at fixed k_T near $x=1$

Structure of the photon and of the proton / 65

Proton pdf constraints from W and Z at Tevatron

Photon and Electroweak boson physics from HERA , RHIC and TeVATRON to LHC / 66

Physics with Photons at ATLAS

PLC Introduction / 67

PLC Introduction

PLC Introduction / 68

From a LEPC to a LHPC : the need for a dedicated photon-photon detector

Linear Collider, Interaction Point and Laser / 69

High-Power Picosecond Pulse Recirculation for Inverse Compton Scattering

Linear Collider, Interaction Point and Laser / 70

Towards a polarized positron source

QED processes / 71

Large contribution of the Delbrueck scattering into process of a photon emission in collisions of relativistic nuclei

QED processes / 72

Four fermion production from PLC to LHC

73

Signal of new physics

LHC/ILC / 74

ILC/LHC

ILC/PLC and LHPC discussion / 75

ILC/PLC and LHPC discussion

Higgs and SUSY / 76

Higgs and SUSY

Summary Talks / 80

Experimental Summary

Summary Talks / 81

Theoretical Summary

Jets and inclusive reactions / 82

Direct photon production at RHIC

Higgs and SUSY / 83

Higgs->gamma gamma in ATLAS

Higgs and SUSY / 84

Fermion Polarization at gamma-gamma Collider : A probe of CP properties of Higgs boson

Jets and inclusive reactions / 85

Di-jet production in photon-photon collisions at DELPHI
