## Optimisations of the Compute Resources in the CERN Cloud Service

*Wednesday, October 14, 2015 9:20 AM (20 minutes)*

This talk will summarise our activities related to the optimisation of the virtualised compute resources in our OpenStack-based infrastructure. In particular, we will discuss some of the issues we've encountered and the various optimisations we've applied to bring the virtual resources as close as possible to bare-metal performance.
