

Welcome to the MP3 review

28 April 2015, Novotel Ferney-Voltaire

Indico: 384361

Main aim of the review

- Review the last two years of MP3, focussing on MP3 related activities during the recent powering tests of the HWC.
- Discuss the functioning of the MP3 in the coming years.
- Collect and document observations and feedback on MP3 related work, now that the HWC is still fresh in our minds.
- How to further improve the powering tests and the analysis of the tests of future HWC campaigns.
- How to perform specific analysis and monitoring during Run 2.

Timetable

0	Introduction	9:00-9:15	Arjan
1	MP3 organisation	9:15-10:00	Jean-Philippe & Ivan
2	Preparation for powering tests	10:00-11:00	Michele & Daniel
	Coffee break		
3	Software tools for powering tests	11:20-12:20	Sandrine & Zinur
	Lunch break		
4	Powering tests	14:00-15:20	Felix & Jens
	Tea break		
5	MP3 after HWC	15:40-16:40	Bernhard & Mateusz
6	Final summary & conclusion	16:40-17:00	Gerard

We are aiming at a maximum of discussions and feedback.

Each session has two panel chairs to guide/steer the discussion on the basis of some slides.

We invited people from CRG, EPC, ICE, MSC, MPE (incl. QPS, EE, ELQA, MS), and OP, so as to get feedback from the various teams that had a direct contact with MP3.

Note: aspects of the HWC that had no direct impact on the work/functioning of the MP3 will not be covered (hardware issues, planning, access, ...).

A final report, (i.e. the slides and a summary of the discussions), will be available in a few weeks and will be distributed among the participants.
