

Session Program

8-14 Feb 2009

**Aspen Winter 2009 - Workshop on Physics at
the LHC era**

Monday Afternoon Session

Aspen Center for Physics

Monday 9 February

16:30

Monday Afternoon Session

Session | **Location:** Aspen Center for Physics

16:30–17:00

Measurements of Inclusive Jets and photon/W/Z+jets at the Tevatron

Speaker

Mario Martinez-Perez

17:00–17:25

Prospects for QCD Physics at the LHC

Speaker

Monica Dunford

17:25–17:50

Theoretical Understanding of QCD at Hadron Colliders

Speaker

Peter Skands

17:50–18:10

break

18:10–18:30

The first LHC beam in ATLAS

Speaker

Peter Krieger

18:30–18:50

The first LHC beam in CMS

Speaker

Maria Chamizo Llatas

18:50–19:20

Electroweak Measurements at the Tevatron

Speaker

Pavel Murat

19:20
