

6th International Workshop on High Energy Physics in the LHC Era

Saturday, 9 January 2016

Dark Matter Searches / Astroparticle - Salon de Honor, Building A (14:30 - 16:10)

time	[id] title	presenter
14:30	[123] Dark matter and its possible connection with neutrino physics	PEINADO, Eduardo
14:55	[125] Signatures from Scalar Dark Matter with a Vector-like Quark Mediator	TYTGAT, Michel
15:20	[122] Baryogenesis from symmetry principle	FONG, Chee Sheng
15:45	[124] Toward a purely affine theory of gravity	CASTILLO-FELISOLA, Oscar

Dark Matter Searches / Astroparticle - Salon de Honor, Building A (16:40 - 17:55)

time	[id] title	presenter
16:40	[282] Dark Matter searches at CMS	TROCINO, Daniele
17:05	[126] Interpretations of IceCube High Energy Neutrino Events	PANES, Boris
17:30	[283] Axions in gravity with torsion	CORRAL, Cristobal
