

6th International Workshop on High Energy Physics in the LHC Era

Saturday, 9 January 2016

Non-Perturbative QCD - Auditorium Principal, Building A (16:40 - 17:55)

time	[id] title	presenter
16:40	[295] Suppression of net particle production from finite fermion mass: A real-time CME simulation	MORALES, Pablo
17:05	[296] Recent results on soft QCD topics, and jet and photon production from ATLAS	VILLAPLANA PEREZ, Miguel
17:30	[297] Evidence for Exclusive WW production at 8TeV and other forward physics results from CMS	MORA HERRERA, Clemencia
