=====

EPAC08 <http://www.epac08.org>

Most contributions were loaded, before or after it,
on the page of the rehearsal VC
<http://mice.iit.edu/vc/vc111/vc111.html>

Cobb and Huang had withdrawn. We had no feedback from Moss and Orrett.
Apollonio, Tilley, Smith warned me that before deadline they had
improved
their poster. I received only one finished product (Tilley)
For bookkeeping purposes, I tried so far in vain to find the URLs of
all finished
posters on the EPAC08 Web pages.
I could find only Apollonio, Blondel, Booth/Smith, Tilley among the
abstracts ?!

NuFact08 <http://ific.uv.es/nufact08/>

There were several talks treating MICE but no MICE title strictly
speaking.
This is a general problem, see below.
Bonesini gave a talk on PID instrumentation in WG4
<http://indico.ific.uv.es/indico/getFile.py/access?contribId=137&sessionId=25&resId=0&materialId=slides&confId=71>
The EB should see the written version that will go in the proceeding
So will the posters by Forrest, Kardzhov and Smith.

Future events

=====

ICHEP <http://ichep08.com/>

Two posters in parallel session

- Status of MICE (Kaplan, Bross) neutrino session
- Emittance Measurement in MICE (Kaplan, Hart) detector session

NOW08 <http://www.ba.infn.it/~now/now2008/>

Waiting from convenor if any room left. Not encouraging as
ISS talk by Long session 3
R&D on neutrino beams talk by Bonesini session 5

NNN08 <http://nnn08.in2p3.fr/>

Waiting from convenor if any room left. Not encouraging as
Bross talk on muon R&D
and possibly more, program not disclosed yet

LINAC08 <http://www.triumf.info/hosted/LINAC08/>

Zisman submitted abstract for oral talk, granted
Needs replacement, none found so

IEEE 2008 IEEE Nuclear Science Symposium <<http://www.nss-mic.org/2008/NSSMain.asp>>
looking into it now

Two comments of general nature

=====

- 1) ISS/IDS, USMC and similar sometimes preferred to MICE, in particle physics conferences.
- 2) speaker bureau and collaboration board still not in good enough tune
