

TMD2015 - A path towards TMD extraction

Thursday, 3 September 2015

TMDs from azimuthal asymmetries in transversely and longitudinally polarized SIDIS - Giambiagi Lecture Hall (10:00 - 15:00)

-Conveners: Mauro Anselmino; Marco Contalbrigo

time	[id] title	presenter
10:00	[22] Experimental overview: status and perspectives	BRESSAN, Andrea
11:00	[23] Phenomenology: status and perspectives	BOGLIONE, Mariaelena
12:00	[15] Point by point extraction of the transversity distribution	MARTIN, Anna
12:25	[7] An update on the extraction of neutron SSAs from ^3He data	SCOPETTA, Sergio
12:55	[47] The pretzelosity of the nucleon	MA, Bo-Qiang
13:20	[46] Transversity from GPDs	GOLDSTEIN, Gary
13:45	[11] Collins asymmetries in $p p \rightarrow \text{jet pion } X$	PISANO, Cristian
