## THE CERN SAFETY POLICY

Each person [...] shall actively contribute to the implementation of the CERN Safety Policy through

- exemplary conduct and [...]
- compliance with CERN Safety Rules [...]
- actively seeking information to minimise risks,
- avoiding dangerous situations for herself/himself and [...]
- exercising the responsibilities assigned to her/him safely.

### A NEW ERA OF SAFETY AT CERN

CERN is modernising its safety policy and organisational structure in matters of Safety with the introduction of new reference documents that have come into force on 29 September. These texts adapt the Organization's safety policy to take account of how the Laboratory has evolved and to include best practice in Safety matters.

Safety is a priority at CERN, so it's no coincidence that the Organization's anniversary has been chosen as the time to launch a modernised approach to its Safety policy and how Safety matters are organised. On the day of CERN's 60th anniversary, the SAPOCO 42 document, which covered both policy and organisational aspects, was replaced by a more concise **general policy statement**. The organisational structure and responsibilities in matters of Safety are now set out in a **Safety Regulation**, that is supplemented by

# Safety is a priority for CERN

*La Sécurité est une priorité pour le CERN*

Rolf Heuer, DG

I firmly believe that our success can only be built on a strong safety culture providing a safe and secure environment for all, whether they be staff, users, contractors or visitors.

*Notre succès ne peut se construire que sur une culture de la Sécurité forte et proactive dans tous les domaines de la vie de l'Organisation.*

# More Information

Plus d'information

The screenshot shows the CERN Directory website. The browser address bar displays 'directory.web.cern.ch/directory/'. The page header includes 'CERN Accelerating science' and navigation links for 'Sign in' and 'Directory'. A search bar is present with a 'Phonebook' dropdown and a 'Search' button. The main content area is divided into several sections:

- The CERN Directory**: A search prompt for scientists, CERN people, or general information.
- USEFUL CONTACTS**: A list of contact numbers: Emergencies (74444), Computer security (70500), CERN service portal (77777), and Switchboard (111).
- Departments, groups and units**: A grid of departmental links. The link for 'HSE - Occupational health and safety and environmental protection unit' is circled in orange.
- JUMP TO SECTION**: A vertical list of navigation links including 'Departments, groups and units', 'Experiments and projects', 'Applications', 'Admin and procedures', 'Maps and access', and 'News and events'.
- Training and development**: A grid of training-related links. The link for 'Safety Training' is circled in orange.
- Accelerators and physics**: A vertical list of navigation links including 'Documents, reports and publications', 'Committees and council', 'Working at CERN', and 'Life at CERN'.
