ECRIS08 Conference Report Maria A. Power, ANL ECRIS08 Proceedings Editor

JACoW 2008 Team Meeting
17-20 November, 2008
KEK, Tsukuba

ECRIS08 – 18th International Workshop on ECR ION Sources **Chicago, Illinois USA** **September 15-18, 2008**

- Workshop Attended by ~80 people
- 63 Abstracts Submitted (23 posters, 40 presentations)
- All abstracts submitted through JACoW
- JACoW site hosted through FNAL
- Currently attempting to publish proceedings

Use of JACoW

- Abstract submission went well, some editing/correction needed for “special” characters.
- IT dept. refused to assist with upload scripts/flat out refused to allow uploads by others due to virus concerns
- Used reports to create table in Excel and then used MS-Word Mail Merge to create abstract book publication
- Would be nice to create an export to CSV or tab-delimited format for all abstract information for such uses.

Still to do...

- Upload papers
- Publish proceedings
 - Creating and distributing to the attendees a memory stick with pdf's of papers, posters and presentations, depending on total size
 - Not printing a book

Registration

- Did not use registration module
- Wanted registration system that would allow online payment but...
- IT dept. convinced us to allow them to create a registration system which could be used for future conferences/workshops...
- Documentation of registration module is needed

If I could go back in time and do it over again...

- Signed on to JACoW sooner to get more complete training
- Used the registration module
- More fully utilized this feature rich system
