

THE First PbPb Event at LHC

Introduced this event and this book;
sold at the CERN shop opened at this page and with this cover.

Event Display of THE first PbPb event, in the ALICE control room,
during THE first Heavy Ion Run at LHC.

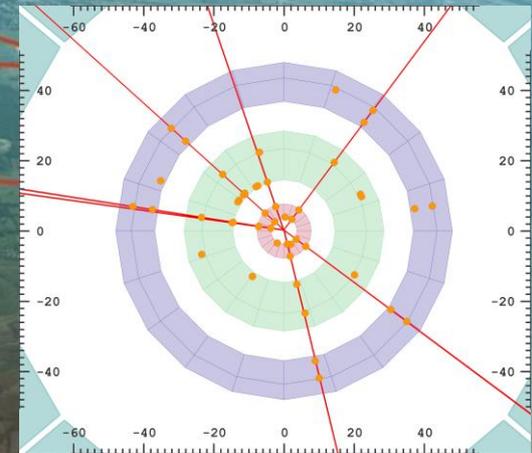

It was done by one of your colleagues, at CERN, with an internship,
a student of the Heavy Ion group of Jan Pluta and Adam Kisiel.

ALICE at the CERN LHC

THE FIRST pp event
when the LHC started running
and we published the VERY FIRST paper at LHC.

pp at 900 GeV
september 2009

pp at 14 TeV
PbPb at 5.5 TeV

ALICE Strangeness MasterClass

In Collaboration with WUT development of a package called Strangeness Enhancement MasterClass, based on the Event Display.

The idea is to give ALICE data, to school children, to analyse them as ALICE physicists do.

Part of an International project that runs for the full month of March.

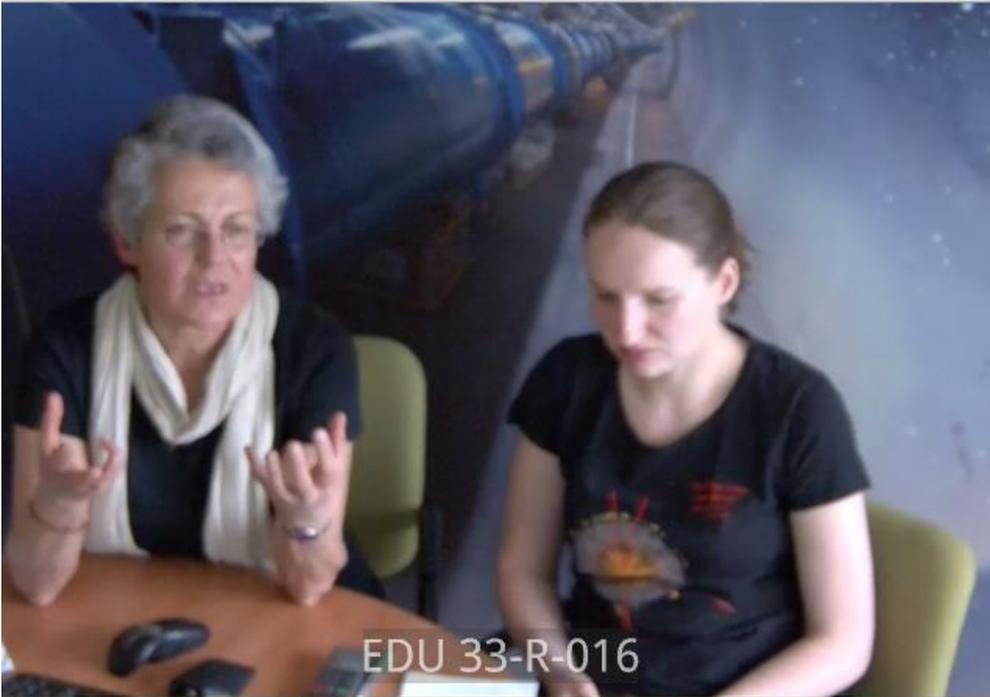

ALICE Strangeness MasterClass

On Saturday 28 March took place at WUT
