## Who I am

## Gautier Hamel de Monchenault

- experimental physicist at CEA-Saclay (France)
- 1989-1992: PhD thesis in DELPHI at LEP-I (CERN)
   Time Projection Chamber (TPC)
   Looked hard for the Higgs boson but did not find it
   ... excluded mass range from 0 to 35 GeV @ 95% CL
- 1993-2006: BABAR experiment at PEP-II (SLAC)
   Ring-Imaging Cherenkov Particle Identification (DIRC)
   BABAR Physics Coordinator in 2000-2001
   Discovery of CP violation in the B meson system in 2001
- Since 2006: CMS experiment at the LHC (CERN)
   Electromagnetic Calorimeter (ECAL)
   Convener for Electroweak Physics (2010-2011)
   Chairman of CMS Publications Committee (since 2014)

## CP violation in B meson system

## Electroweak physics at CMS before Higgs boson discovery
