

SCINT 2017 - 14th Int. Conference on Scintillating Materials and their Applications

Wednesday 20 September 2017

Nanomaterials (08:30 - 10:00)

-Conveners: Christophe Dujardin

time	[id] title	presenter
08:30	[189] Colloidal quantum dots design for scintillation applications	MAHLER, Benoit
09:00	[114] Radiation synthesis of highly luminescent nanoscintillators with fast decay	ČUBA, Václav
09:15	[91] Spectroscopic Properties of Scintillating Hafnium Dioxide Nanocrystals	Prof. VEDDA, Anna
09:30	[41] Purcell-Enhanced scintillating properties in metal:ZnO nanostructures	ZHU, Renyuan
09:45	[223] Growth and Characterization of InGaN/GaN Multiple Quantum Well Structures used for Scintillation Detectors	HUBÁČEK, Tomáš
