

The 3rd Annual Large Hadron Collider Physics Conference (LHCP2015)

Wednesday, 2 September 2015

Top - 3: Parallel 6 (14:00 - 16:00)

-Conveners: Christian Schwanenberger; Fabrizio Caola; Pedro Vieira De Castro Ferreira Da Silva; Alison Lister

time	[id] title	presenter
14:00	[119] Golden Probe for the Top Yukawa	STOLARSKI, Daniel
14:20	[120] Selected topics from angular distributions in ttbar events: charge asymmetry, spin correlation and polarisation	GERBER, Cecilia
14:40	[121] Selected topics from top properties at the Tevatron	GERBER, Cecilia
15:00	[122] Selected topics from other properties and limits on new physics from top measurements (width, FCNC,...)	LEMMER, Boris
15:20	[123] Wish list for Run II top measurements	FRANCESCHINI, Roberto
15:40	[124] Heavy baryons as polarimeters at colliders	KATS, Yevgeny
