

The 3rd Annual Large Hadron Collider Physics Conference (LHCP2015)

Monday, 31 August 2015

HF Physics - 1: Parallel 1 (11:30 - 13:00)

-Conveners: Alex Cerri; Liming Zhang

time	[id] title	presenter
11:30	[13] Theory: overview on production (including polarization) and spectroscopy	BUTENSCHOEN, Mathias
11:48	[14] ATLAS HF production and decay properties	SMIRNOVA, Lidia
12:06	[15] CMS HF production and decay properties	STROM, Derek Axel
12:24	[16] LHCb early measurements focusing on B and Charm production	PEARCE, Alex
12:42	[17] LHCb results on charm mixing, decay and CPV	DI CANTO, Angelo
