

Recent Developments in Silicon Detectors

Monday, February 15, 2016 2:00 PM (45 minutes)

The talk will give a (selective) overview of developments in recent years on silicon detectors, in particular those developments which are challenged by new demands on particle tracking and vertexing from coming-up new experiments and upgrades.

Presenter: WERMES, Norbert (Universitaet Bonn (DE))

Session Classification: Plenary 2

Track Classification: Semiconductor Detectors
