

**Session Program**

**15-19 Feb 2016**

**VCI2016 - The 14th Vienna Conference on  
Instrumentation**

***Plenary 3***

Vienna University of Technology  
Gusshausstraße 27-29, 1040 Wien

# Tuesday 16 February

09:00

## Plenary 3

**Session** | **Location:** Vienna University of Technology, Gusshausstraße 27-29, 1040 Wien | **Convener:** Ariella Cattai

09:00–09:45

### Recent Progress in Photodetectors

**Speaker**

Samo Korpar

09:50–10:10

### SciFi - A large Scintillating Fibre Tracker for LHCb

**Speaker**

Thomas Kirn

10:15–10:35

### SoLid: An innovative antineutrino detector for searching oscillations at the SCK•CEN BR2 reactor

**Speaker**

Yamiel Abreu

10:40

11:20

## Plenary 3

**Session** | **Location:** Vienna University of Technology, E17 | **Convener:** Ariella Cattai

11:20–11:40

### From gated to continuous readout: an upgrade of the ALICE TPC

**Speaker**

Piotr Gasik

11:45–12:05

### Strategies for reducing the environmental impact of gaseous detector operation at the CERN LHC experiments

**Speaker**

Beatrice Mandelli

12:10–12:30

### Liquid xenon calorimeter for MEG II experiment with VUV-sensitive MPPCs

**Speaker**

Shinji Ogawa

12:35
