## Friday, 19 February 2016

### Biomolecular mechanisms driving modulation of tumor cell sensitivity (08:30 - 09:45)

-Conveners: Zvi Fuks; Martin Pruschy

time	[id] title	presenter
08:30	[126] Genetic and pharmacological inhibition of autophagy after irradiation	ROUSCHOP, Kasper
08:55	[127] Oncometabolite lactate promotes tumour growth	SONVEAUX, Pierre
09:20	[128] Determining cell radiosensitivity using assays in ex vivo irradiated tumour specimens	ZIPS, Daniel
