

Proposal for a Workshop in Vienna

R. Frühwirth¹

¹Institute of High Energy Physics
Austrian Academy of Sciences

²Institute of Statistics and Mathematical Methods in Economics
TU Wien

CTD2015 followup meeting #2

11 May 2015

Why?

- I will retire end of 2017
- Hosting CDOT would be a very nice way of saying “good-bye” to the community
- I have the full support of the institute management
- Vienna is a place well worth a visit

When?

- This depends on the frequency we envisage
- 12 months: February 2016 or February 2017 (my preference)
- 18 months: August/September 2016
- 24 months: February 2017

Where?

- Lecture room at HEPHY too small
- Academy of Sciences: have to rent the room, cost not negligible
- TU Wien: many rooms free during academic holidays, can be reserved at nominal cost if TU is co-organizer
- Director of HEPHY is professor at TU, so no problem

TU Main Building

TU Library and Phys/Math Building
