

Jet workshop at Yale

Report of Contributions

Contribution ID: 0

Type: **not specified**

Jet Quenching Effects on the Direct, Elliptic, and Triangular Flow

Thursday 14 May 2015 14:00 (30 minutes)

Presenter: NORONHA, Jorge (Universidade de Sao Paulo (USP))

Contribution ID: 1

Type: **not specified**

Moliere Scattering in the Quark Gluon Plasma

Thursday 14 May 2015 14:30 (30 minutes)

Presenter: D'ERAMO, Francesco (UC Berkeley)

Contribution ID: 2

Type: **not specified**

Anisotropic Jet Quenching in semi-Quark-Gluon Monopole Plasmas

Thursday 14 May 2015 15:00 (30 minutes)

Presenter: XU, Jiechen (Columbia University)

Contribution ID: 3

Type: **not specified**

Recent Progress in Holographic Models of Jet Quenching

Thursday 14 May 2015 15:30 (30 minutes)

Presenter: CHESLER, Paul (MIT)

Contribution ID: 4

Type: **not specified**

Lessons from Jet Substructure for Heavy Ions (VIDYO)

Thursday 14 May 2015 16:30 (30 minutes)

Presenter: THALER, Jesse (MIT)

Contribution ID: 5

Type: **not specified**

Results from the Jet Collaboration

Thursday 14 May 2015 17:30 (30 minutes)

Presenter: MAJUMDER, Abhijit (Wayne state university)

Contribution ID: 6

Type: **not specified**

What to Measure Next with Jets?

Thursday 14 May 2015 17:00 (30 minutes)

Presenter: SHURYAK, Edward (stony brook university)

Contribution ID: 7

Type: **not specified**

The complementarity of LHC and RHIC jet results

Thursday 14 May 2015 11:00 (30 minutes)

Presenter: PUTSCHKE, Jorn Henning (Wayne State University (US))
