

**Welcome**

Alexander Kupčo

Institute of Physics

**Workshop on Picosecond Photon Sensors  
for Physics and Medical Applications**

June 8-10, 2015, Prague

Prague

# Welcome

---

- Institute of Physics ASCR - department of Elementary particle physics
- strong involvement in international HEP experiments
  - Delphi, H1, DØ, etc.
  - Atlas, Alice, Totem, NOvA
- Atlas represents our largest involvement
  - good cooperation with colleagues from
    - Charles University in Prague
    - Czech Technical University in Prague
    - Palacky University in Olomouc
  - the team played important role in building the Atlas tracker
  - involved also in R&D of new semiconductor detectors and electronics for future experiments at large luminosities and in developing applications for semiconductor detectors (Medipix/Timepix)
  - nearer future - AFP detectors with picosecond timing detectors

# Welcome

---

- The subject of the workshop is very relevant for future development of new particle detectors techniques

And we are proud to host this interesting workshop here in Prague

# Lunches

---

- Pizzeria Giovanni near the metro station Ladvi C (10 minute walk)
- two choices for menu
- if you haven't, please, let us know your preference for Monday now
- take your ticket with you
- one drink (soft or beer) is included in the price
- you can have your after-lunch coffee back here in the institute

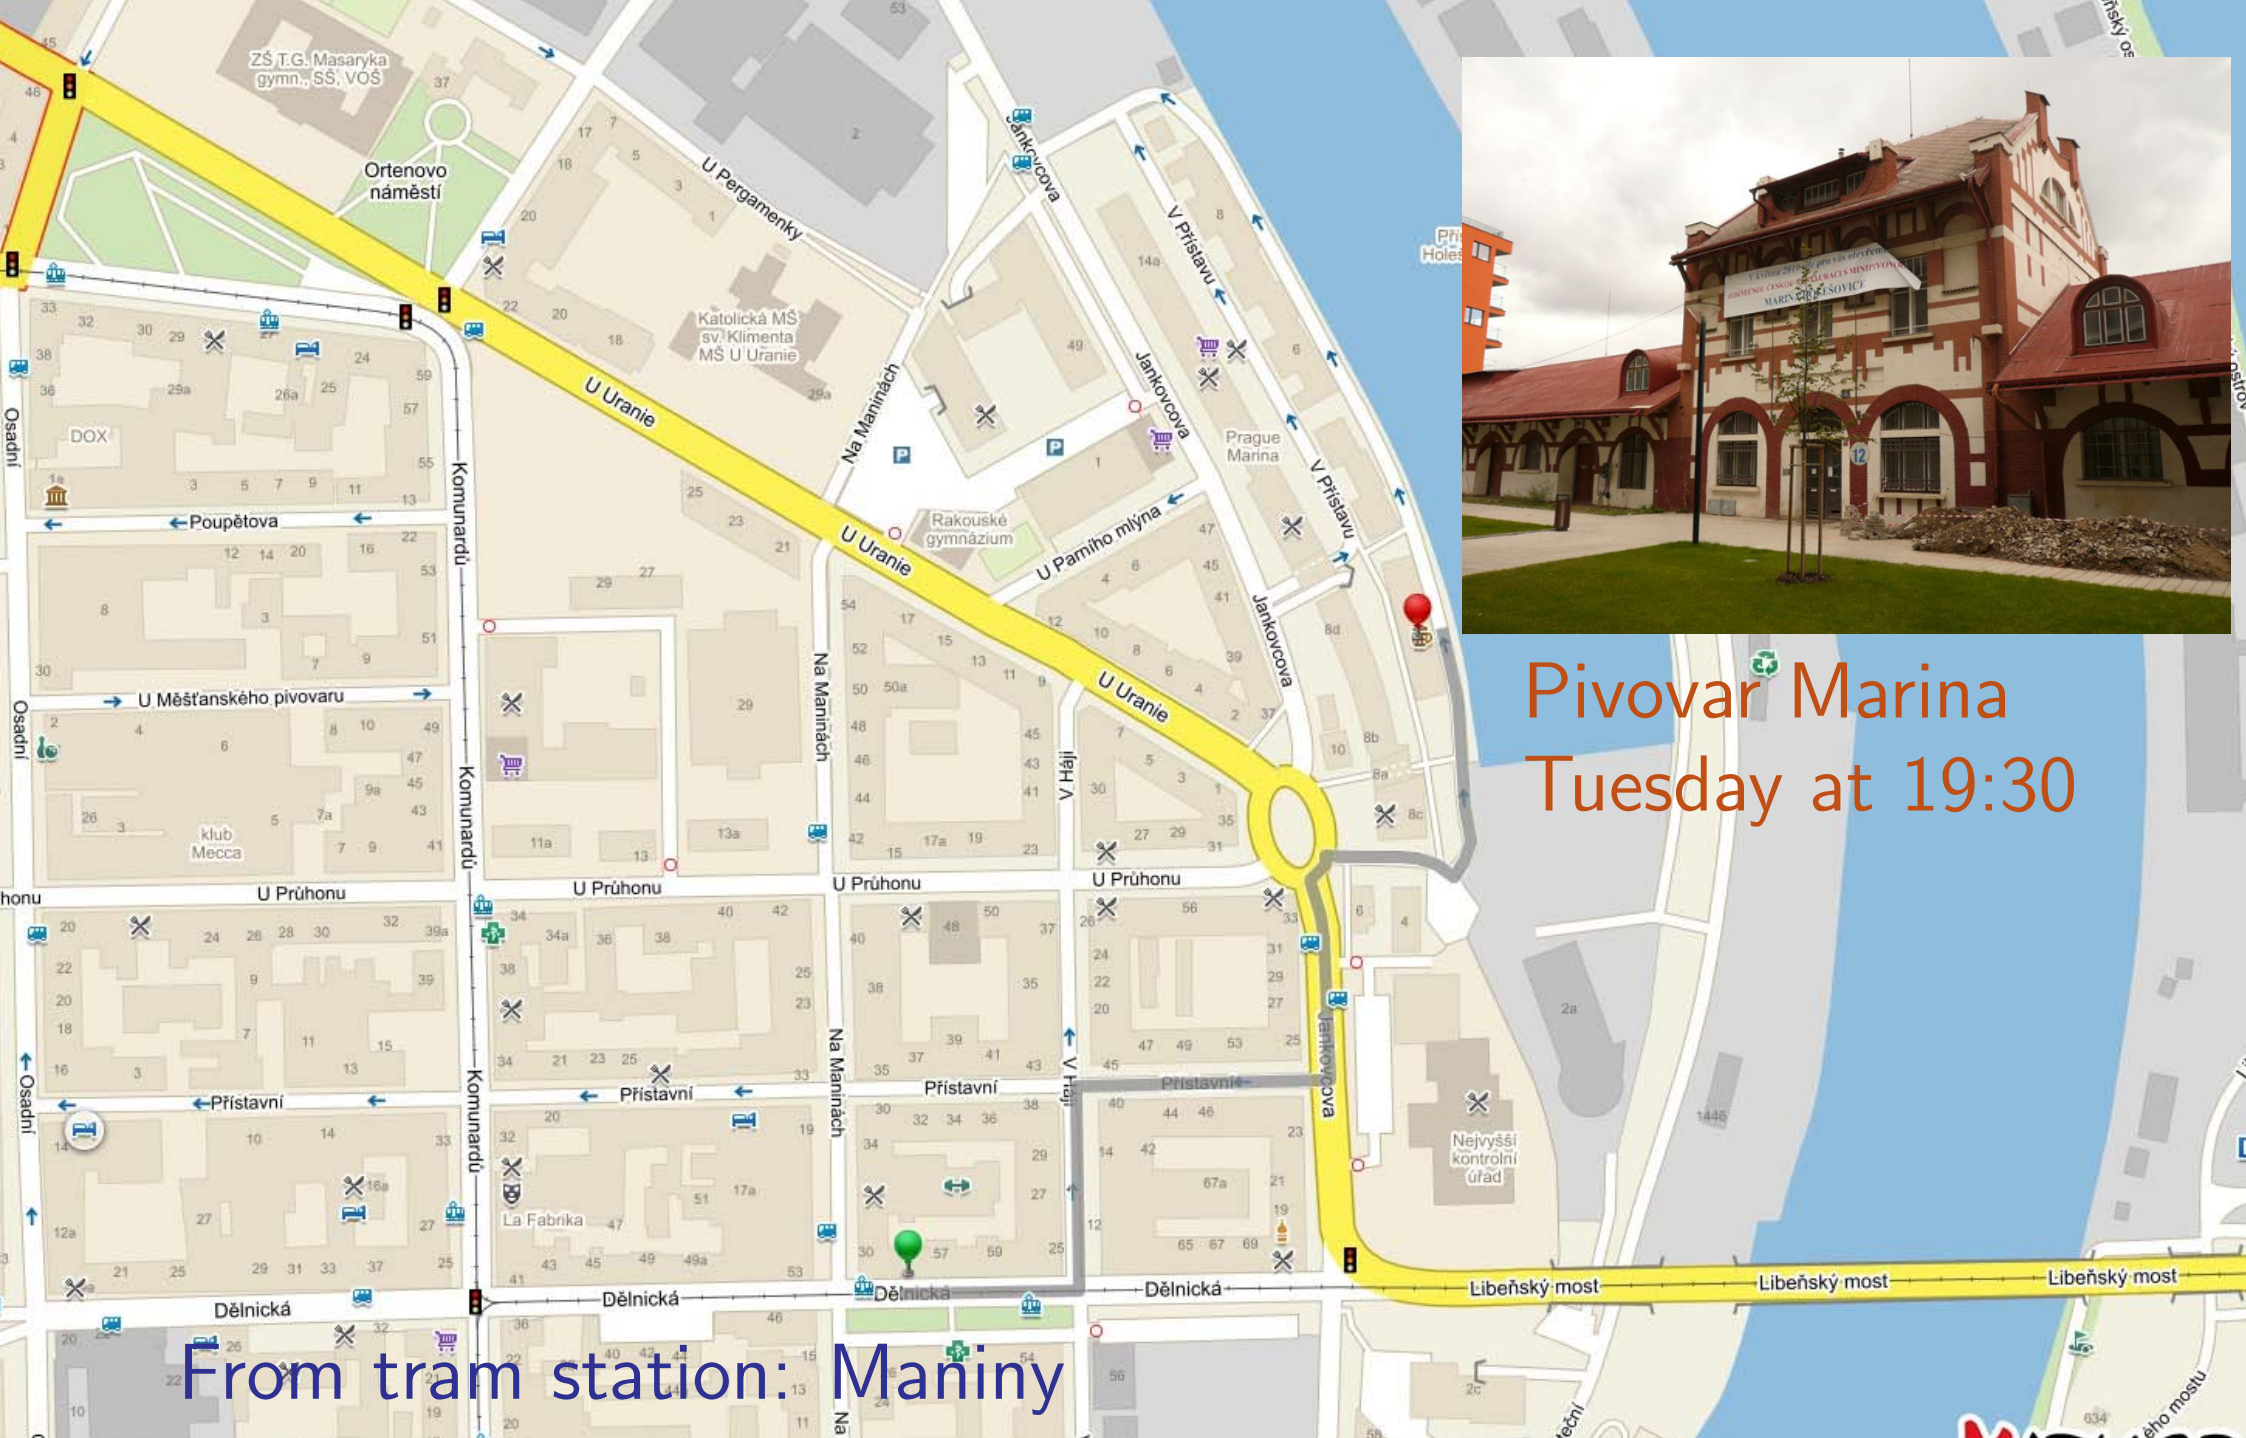

# Workshop dinner

---

- Brewery Marina
- Tuesday June 9 at 19:30
- three menus
  - make your choice during the following coffee break before lunch
  - 45 Euro for accompanying person

Pivovar Marina  
Tuesday at 19:30

From tram station: Maňiny

Tram: **1, 25** (from C-line Vltavska or B-line Palmovka), **12** (C - Nadr. Holesovice)

Tram: **17** (C - Kobylisy, Nadr. Holesovice; B - Palmovka)

# Other issues
