

ACAT 2016

Thursday, 21 January 2016

Track 3: Computations in theoretical Physics: Techniques and Methods (14:00 - 18:30)

time	[id] title	presenter
14:00	[160] Physics beyond the Standard Model at the Precision Frontier	ALEKSEJEVS, Aleksandrs
14:25	[180] SModelS: A Tool for Making Systematic Use of Simplified Models	WALTENBERGER, Wolfgang
14:50	[181] Making extreme computations possible with virtual machines	REUTER, juergen
15:15	[225] High Performance and Increased Precision Techniques for Feynman Loop Integrals	Prof. KATO, Kiyoshi
15:40	Coffee break
