

Session Program

17-18 Nov 2015

LHC TOP WG meeting

***Probing top quark couplings and charge
asymmetry***

CERN, 4/3-006 - TH Conference Room

Wednesday 18 November

09:00

Probing top quark couplings and charge asymmetry

Session | Location: CERN, 4/3-006 - TH Conference Room

09:00-09:30 Single top production and Vtb combination plans

Speaker

Alberto Orso Maria Iorio

09:30-10:00 Ideas for combinations of measurements constraining Wtb vertex

Speaker

Nuno Filipe Castro

10:00-10:30

Determination of the top EW couplings via an EFT approach: theoretical aspects

Speaker

Fabio Maltoni

10:30-11:00 Coffee break

11:00-11:30 ATLAS and CMS Run1 $t\bar{t}b\bar{V}$ production

Speaker

Tamara Vazquez Schroeder

11:30-12:00 ATLAS and CMS 8 TeV charge asymmetry measurements

Speaker

Thorsten Chwalek

12:00
