## Internal Grid experiences in Monte dei Paschi di Siena Group

*Tuesday, 3 March 2009 09:45 (20 minutes)*

“Internal Grid experiences in Monte dei Paschi di Siena Group”

Piero Poccianti, Competence & Innovation Center Leader, Banca Monte dei Paschi di Siena

Piero Poccianti has been involved in Information Technology projects since 1976. From 1980 to 1999 he has been working as IT manager in Banca Toscana, having in charge the following main topics: - Office Automation Projects (1990-1994) - Evolution and renewal of the Branch Architecture for “Banca Toscana” and “Banca Monte dei Paschi di Siena” banks within MPS Group (1995-1999).

Since 1999 up to 2001 he has been involved in “Consorzio Operativo Gruppo MPS” (the company providing information system services for all the companies inside the MPS Group). In his role he has guided the design and development phases of the new banks’ Multichannel Architecture. He currently has the role of Competence & Innovation Center Leader as Director within the Consorzio MPS. In his current position he has the responsibility of all research activities within the MPS Group. Identifying new paradigms and promising/innovative technologies for the evolution of Information Systems of the Group are the main goals of the Competence Center Team.

The Competence Center Group, currently named “Osservatorio Tecnologico” is in the staff of the General Manager of the Consorzio MPS.

Piero Poccianti is also member of the Council of Artificial Intelligence Italian Association.
