The benefits of SOLID in software development

Tuesday, 29 September 2015 15:00 (30 minutes)

In the talk, the SOLID principles will be presented, every one of them will be explained and some examples
will be given and I I will tell why should we use every one of them to improve the quality of our software as
well its maintainability and extensibility.

Availability

Tuesday

Will you need the training center (Workshops)?

No
