

LHC2FC WG1 discussion session

Tuesday, 17 February 2009 15:30 (50 minutes)

Discussion: - What could the effective Lagrangian for the Higgs sector look like?

- What does more luminosity (longer LHC running) do for us?

- What would the SLHC or future colliders buy us?

- Where are Higgs sector analyses limited?

Discussion leader: Tilman Plehn

Presenter: , T. Plehn (discussion leader). See <http://sites.google.com/site/lhc2fchiggs>>HERE for details. EVO meeting name "LHC2FC" in the Universe community.
