

Workshop Chamonix XIV

Thursday 20 January 2005

Session 7 - Magnet Issues affecting Beam Commissioning - 503/1-001 - Council Chamber (09:00 - 15:00)

time	[id] title	presenter
09:00	[57] What are today's issues in the production of the Main Bends and Quads ?	Prof. ROSSI, Lucio
09:25	[11] What are today's issues for all other magnets.	Dr MESS, Karl Hubert
09:50	[16] What will the geometry of the Main Bends and Short Straight Sections (SSS) be ?	WILDNER, Elena
10:15	Coffee Break	
10:35	[17] Estimates of the LHC magnetic optics versus requirements	Dr TODESCO, Ezio
11:00	[51] How the magnetic measurements and the Reference Magnet System (RMS) will be used for commissioning ?	Mr BOTTURA, luca
11:25	[21] Magnetic behavior of the correctors: issues for machine operation	VENTURINI DELSOLARO, Walter
14:00	[14] Are there issues due to a long term outdoor storage ?	Mr TOMMASINI, Davide
14:30	[50] Installation strategy: which lessons from sector 7/8?	Mr BOTTURA, luca
