

Session Program

17-21 Jan 2005

Workshop Chamonix XIV

Session 3 - Cryogenic and Vacuum Issues affecting Beam Commissioning

CERN, 503/1-001 - Council Chamber

Tuesday 18 January

09:00

Session 3 - Cryogenic and Vacuum Issues affecting Beam Commissioning

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Conveners:**
Noël (Chairman) Hilleret, Luigi (Scientific Secretary) Serio

09:00–09:20 **How to deal with leaks in the QRL and magnet insulation vacuum**

Speakers

Dr Germana Riddone, Mr Paul Cruikshank

Location

CERN, 503/1-001 - Council Chamber

09:25–09:45 **HOW TO DEAL WITH LEAKS IN THE LHC BEAM VACUUM**

Speaker

Dr Vincent Baglin

Location

CERN, 503/1-001 - Council Chamber

09:50–10:10 **Shortcuts during installation and commissioning: risks and benefits**

Speaker

Dr germana riddone

Location

CERN, 503/1-001 - Council Chamber

10:15–10:35 **Coffee break**

10:35–10:55 **Commissioning the DFB**

Speaker

Mr Antonio Perin

Location

CERN, 503/1-001 - Council Chamber

11:00–11:20 **The cryogenics system in pt 4: possible options**

Speaker

Mr Serge CLAUDET

Location

CERN, 503/1-001 - Council Chamber

11:25–11:45 **Issues concerning the reliability of the LHC cryogenic system**

Speaker

Mr Manel Sanmarti

Location

CERN, 503/1-001 - Council Chamber

12:30
