

Session Program

13-14 Jan 2005

PS/SPS Days

Session 2 - Shutdown Activities in 2005

CERN, 503/1-001 - Council Chamber

Thursday 13 January

14:00

Session 2 - Shutdown Activities in 2005

Session | **Location:** CERN, 503/1-001 - Council Chamber | **Conveners:**
Gianluigi (Chairman) Arduini, Elias (Scientific Secretary) Metral

14:00-14:15 What is falling apart in the injector chain

Speaker

POOLE John

Location

CERN, 503/1-001 - Council Chamber

14:20-14:35

What is falling apart in the technical services for the PS&SPS complex

Speaker

Roberto Saban

Location

CERN, 503/1-001 - Council Chamber

14:40-14:55

Renovation of the 45-year old PS magnets

Speaker

Mr Thomas Zickler

Location

CERN, 503/1-001 - Council Chamber

15:00-15:15

Reliable and easy-to-use instrumentation for a difficult start-up

Speaker

Dr Uli RAICH

Location

CERN, 503/1-001 - Council Chamber

15:20-15:40

coffee break

15:40-15:55

How to get reliable PSB sieve and PS&SPS dumps for 2006?

Speaker

Roberto Losito

Location

CERN, 503/1-001 - Council Chamber

16:00-16:15

Operating the septa beyond their design specs

Speaker

Mr Jan Borburgh

Location

CERN, 503/1-001 - Council Chamber

16:20-16:35

The way to fast and "loss-free" SPS kickers

Speaker

Dr Enrique Gaxiola

Location

CERN, 503/1-001 - Council Chamber

16:40–16:55

What remains to be done to have ISOLDE fully integrated and REX fully operational?

Speaker

Dr Mats Lindroos

Location

CERN, 503/1-001 - Council Chamber

17:00–17:15

How can we restart the AD in 2006?

Speaker

Mr Tommy Eriksson

Location

CERN, 503/1-001 - Council Chamber

17:30
