

## **Stephen McGibbon MSc MBCS MIEE**

**Stephen McGibbon** joined Microsoft January 2004 he as a Senior Director in the newly formed EMEA Technology Office, and as Chief Technology Officer for Eastern Europe, Russia and the Commonwealth of Independent States. In this role Stephen is primarily responsible for the leadership of Microsoft's technical policy engagement with the governments in this diverse and strategically important region, particularly in areas such as Security and Privacy, Standards and Interoperability, Technical and Scientific computing.

Mr McGibbon has more than 15 years experience in the software industry. Prior to joining Microsoft he was IBM's Director of Lotus & IBM Linux Software for Central & Eastern Europe, Middle East & Africa. Previously he was Lotus IBM's EMEA Director of Strategy and Chief Technology Officer for the UK & Eire.

A regular speaker at international conferences on a range of technical and technical policy issues, Mr McGibbon also lectures frequently on technical and business issues at Universities throughout Europe. An acknowledged expert on security, he has also lectured internationally on PKI and associated technologies to both the public and commercial sector.

Mr McGibbon sits on the IT policy advisory boards of several European Governments and is a professional member of the British Computer Society, the Association for Computing Machinery, the IEEE, IEEE Computer Society and IEEE Standards Association.
