

Nuclei in the Cosmos - IX

Monday 26 June 2006

2 Experiments in nuclear astrophysics I (11:45 - 13:15)

-Conveners: Alan Shotter

time	[id] title	presenter
11:45	[265] Underground Nuclear Astrophysics	COSTANTINI, Heide
12:15	[45] The $^{26}\text{Al}(p,g)^{27}\text{Si}$ reaction in Novae	RUIZ, C
12:35	[50] Direct measurement of the $^{18}\text{F}(p,\alpha)^{15}\text{O}$ reaction for application to nova gamma-ray emission.	DE SEREVILLE, Nicolas
12:55	[218] Measuring Difficult Reaction Rates Involving Radioactive Beams: A New Approach	LINDROOS, Mats
