

Nuclei in the Cosmos - IX

Tuesday, 27 June 2006

6 Evidence of nucleosynthesis in stars and presolar grains (11:30 - 13:30)

-Conveners: Roberto Gallino

time	[id] title	presenter
11:30	[187] Heavy elements in presolar grains: constraints on conditions in asymptotic giant branch stars	DAVIS, Andrew
12:00	[168] On the stellar sources of presolar graphite in primitive meteorites	ZINNER, Ernst
12:20	[62] Isotopic Composition of Presolar Spinel Grain OC2: Constraining Intermediate-Mass Asymptotic Giant Branch Models	LUGARO, Maria
12:40	[12] Ne22 a primary source of neutron for the s-process and a major neutron poison in CEMP AGB stars	GALLINO, Roberto
13:00	[259] Accelerator Mass Spectrometry and Nuclear Astrophysics	KORSCHINEK, Gunther
