

Session Program

16-21 Sept 2001

**SCINT 2001: 6th International Conference on
Inorganic Scintillators**

Detector for physics (DP1)

Chamonix, France

Monday 17 September

18:30

Detector for physics (DP1)

Session | Location: Chamonix, France

18:30-19:00

Application in High Energy Physics and Nuclear Physics

Speaker

Faure, JL

19:00-19:20

Status of the PWO crystal production from Russia for CMS-ECAL

Speaker

E. Auffray

19:20-19:40

Influence of the distribution of PWO crystals radiation hardness on the electromagnetic calorimeter performance

Speaker

Drobychev, G

19:40-20:00

Studies of Lead Tungstate Crystals for the ALICE electromagnetic calorimeter PHOS

Speaker

Ippolitov, M

20:00
