

Session Program

16-21 Sept 2001

**SCINT 2001: 6th International Conference on
Inorganic Scintillators**

Crystal Growth (CG)

Chamonix, France

Tuesday 18 September

08:30

Crystal Growth (CG)

Session | **Location:** Chamonix, France

08:30–09:00

Crystal growth from the melt

Speaker

Fukuda, T.

09:00–09:20

Mass production of PWO scintillation elements for CMS Electromagnetic Calorimeter

Speaker

Annenkov, A.

09:20–09:40

Potential of existing Growth Methods of LuAP and related Scintillators

Speaker

Petrosyan, A.

09:40–10:00

Production of REAlO₃: Ce scintillators by Czochralski method

Speaker

Tkachev, A.

10:00–10:20

Crystal growth, spectroscopy and scintillating performance of Yb:YAG

Speaker

Yang, P.

10:20
