

SCINT 2001: 6th International Conference on Inorganic Scintillators

Tuesday, 18 September 2001

Crystal Conditioning (CC) (11:30 - 13:00)

time	[id] title	presenter
11:30	[44] Crystal Conditioning for high energy physics detectors	SCHNEEGANS, M.
12:00	[45] Litrani: a general purpose Monte-Carlo program simulating light propagation in isotropic or anisotropic media	GENTIT, F.
12:20	[46] Operation characteristics of scintillation detectors based on PbWO ₄ , LSO:Ce and CdWO ₄ crystals for nuclear physics and medical apparatus	GLOBUS, M.
12:40	[47] Functional possibilities of organosilicon coatings on the surface of Csi-based Scintillators	KUDIN, A.
