## Detectors for Physics 2 (DP2)

Session | Location: Chamonix, France

08:30–09:00

### Application in High Energy Physics and Nuclear Physics

**Speaker**

Carlson, P

09:00–09:20

### Development of a compact photon detector for ANKE at COSY Jülich

**Speaker**

Hejny, H

09:20–09:40

### Scintillators for photon detection at medium energies- a comparative study of BaF<sub>2</sub>, CeF<sub>3</sub> and PbWO<sub>4</sub>

**Speaker**

Novotny, R

09:40–10:00

### Endcap calorimeter of KEDR detector based on CsI(Na) crystals

**Speaker**

Oreshkin, S

10:00
