Table Of Content

- The Datagrid Software Repository
- Current status of Autobuild (RH6.2)
- Move to RH7.2
- Edg-release rpm lists
- Creating RPM lists from dependencies

The Datagrid Software Repository

- The Datagrid Software Repository
  - Hosted at CC-IN2P3
  - Main services:
    - Source code management for developers (CVS)
    - Packages distribution (RPMS)
    - The autobuild/check system

Current status of Autobuild (RH6.2)

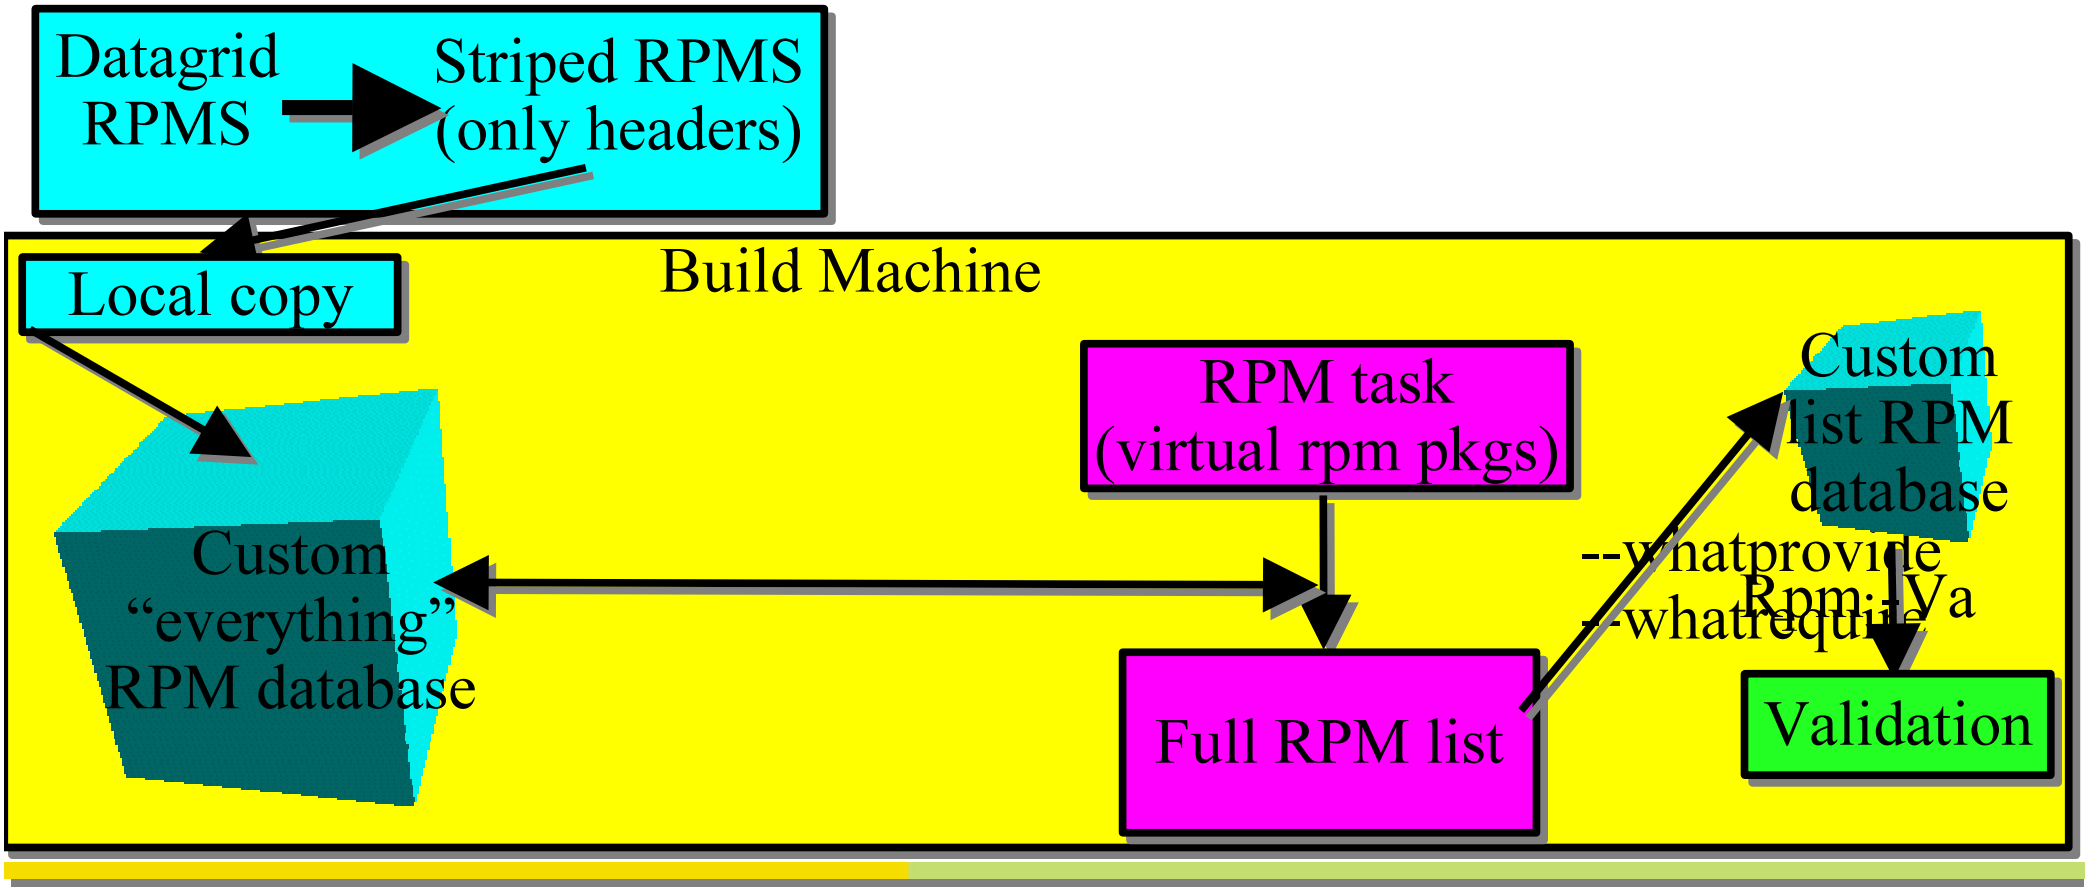
Moving to Redh-Hat 7.2

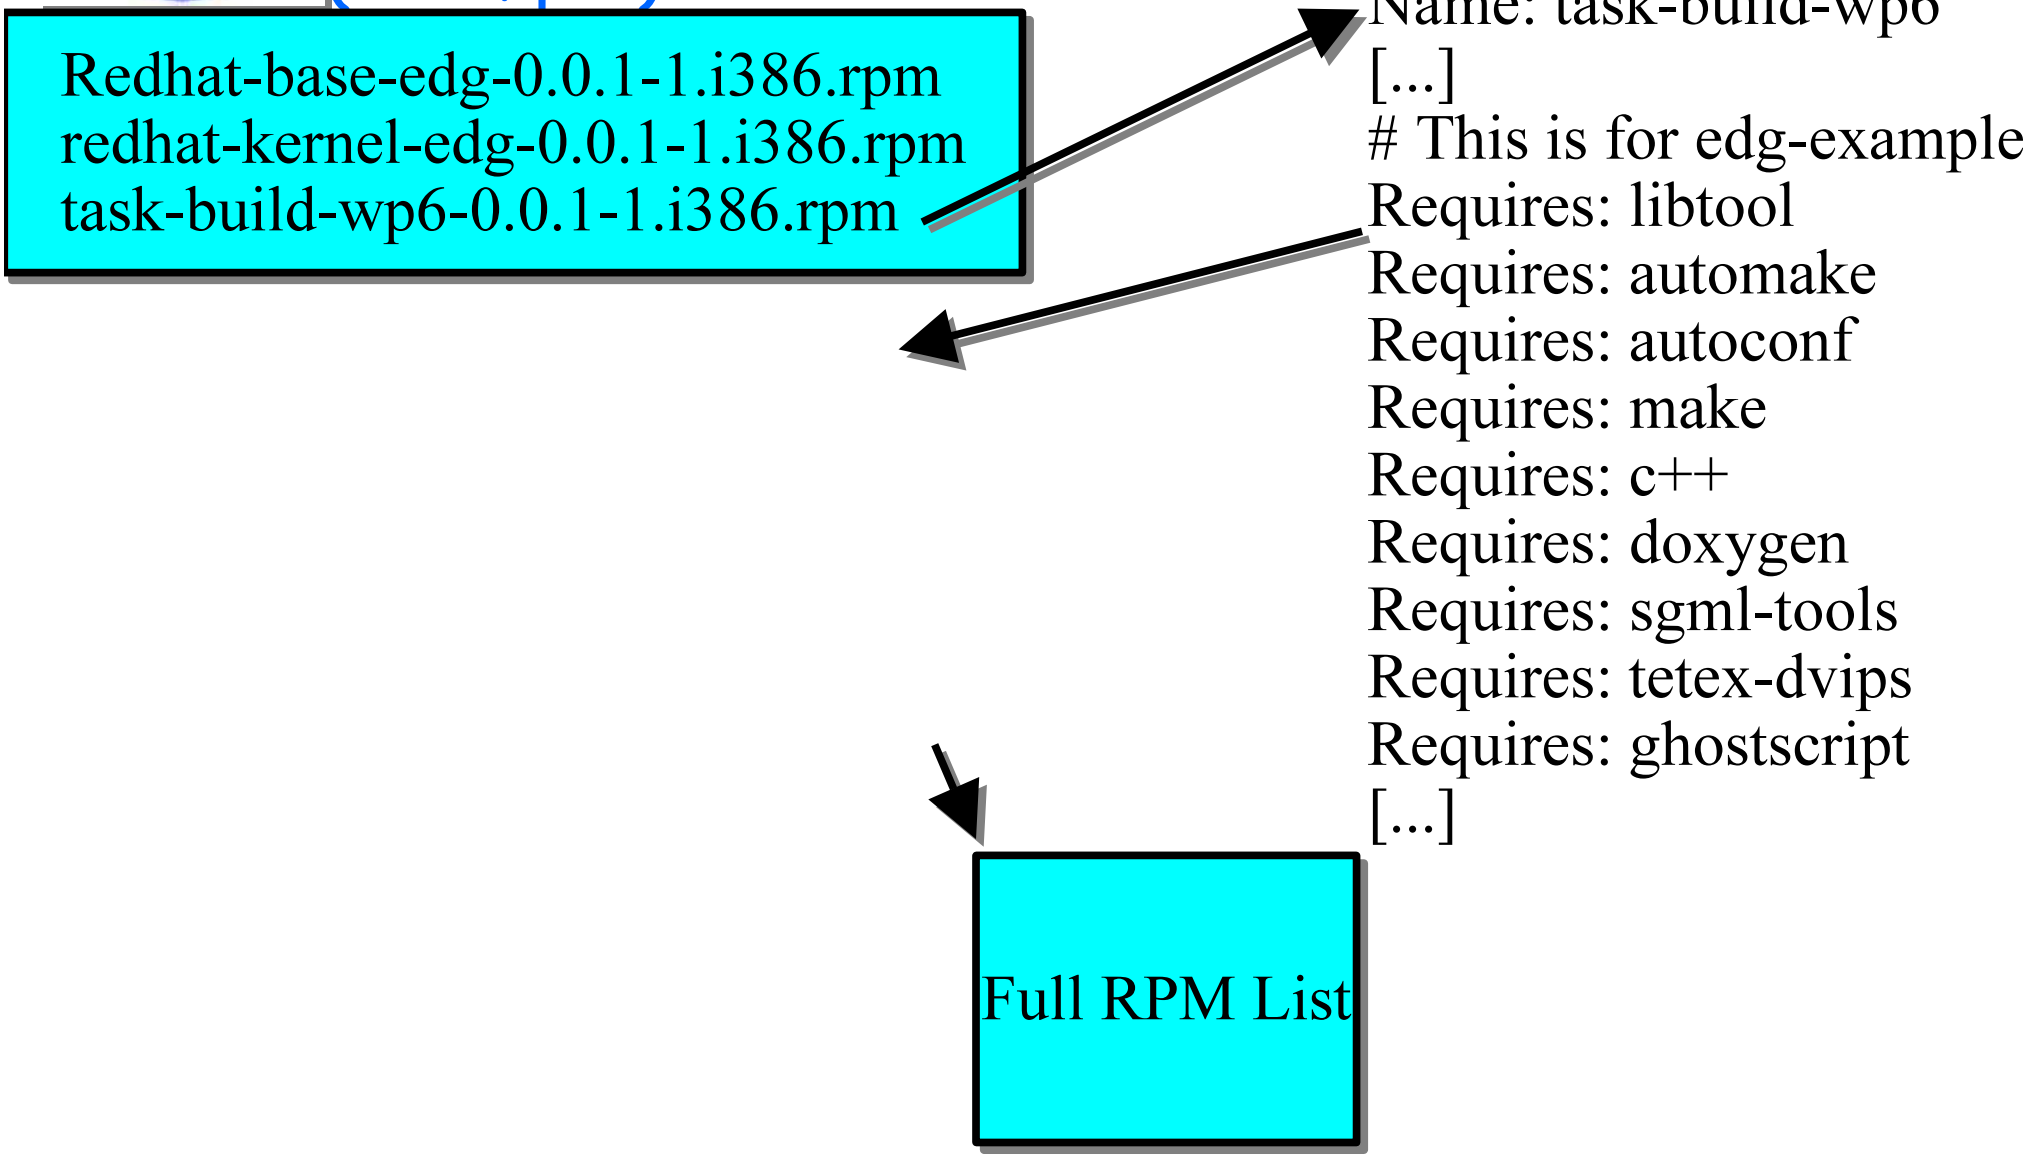
Edg-release rpm lists

Creating RPM lists from dependencies I (idea)

- Problem : Managing huge lists of RPM (edg-release) can be difficult.
- Idea : Creating them from the RPM inter-dependencies

Practical implementation





Creating RPM List from Dependencies II (example)
