Current Release & Documentation

C. Loomis (LAL/Orsay)

charles.loomis@cern.ch

WP6 Meeting (CERN)

October 29, 2002

Current Release

Current Production Release

- ❖ EDG v1.2.3 (JobSubmission, Security upgrade from v1.2.2)

Current Development Release

- ❖ Driven entirely by need to fix "show-stoppers"
 - MDS instabilities
 - GASS Cache problem
 - GridFTP Transfer Time Limit
- ❖ All rpms are available for release!
- ❖ Testing installation & configuration at CERN.
- ❖ Will become baseline release for new software.

Urgent Need:

- ❖ Deploy on main sites & allow ITeam, TSTG, LC, and Application Tests.

Documentation

User's Guide (Editor: Cal)

- ❖ Updated for 1.2-series release.
- ❖ Still relatively current, but update on Data Management expected.
- ❖ Intended to evolve with user comments.

Installation Guide (Editor: Markus)

- ❖ Needs to be completely updated for 1.2.x (1.3.x?).
- ❖ Will ask WP's to update relevant sections.
- ❖ Most overview sections will need to be updated.

Developer's Guide

- ❖ Taken over by the Quality Assurance Group.
- ❖ Combined draft expected soon.
