

Session Program

15-16 Oct 2008

**Workshop on Timing Detectors: from particle
physics to medical applications**

Electronics and read-out (I)

IPN Lyon

Wednesday 15 October

14:00

Electronics and read-out (I)

Session | Location: IPN Lyon

14:00–14:30

Update of the SAM chip performances measured on a USB powered board

Speaker

Eric Delagnes / Dominique Breton

14:30–15:00

10ps Timing with the BLAB series ASICs

Speaker

Gary Varner

15:00–15:30

First results from the DRS4 fast sampling chip

Speaker

Stefan Ritt

15:30–16:00

First results from the CERN TDC chip

Speaker

Christian Mester

16:00
